SCHEDULE ANNOUNCED FOR MEXIA TRADE TOUR

King Orders De Riviera To Form New Cabinet For Spain

Tulsa Tribune Is Under Military Censorship On Gov. Orders

OKLAHOMA CITY, Sept. 14.—The military censorship of the Tulsa Tribune was ordered affective immediately, according to Aldrich Blake, executive counsellor to the governor. The Tribune persistently agitated against the governor's course, Blake said. The Tribune threatens seeking a federal injunction against interference. Armed guards are also threatened for a Muskogee morning newspaper. Governor Walton warned, unless Tulsa remedies the situation the military will impose the "most drastic martial law ever used in the state." The Tulsa Chamber of Commerce demanded that the Klan officials take the responsibility for clearing up conditions.

E. L. SMITH OIL CO. LOOKING FOR RAMSEY 2 SOON

The E. L. Smith Oil Company will probably witness the completion of its Ramsey 2 within the next few hours. A ten day fishing job was successfully handled and the work of drilling in was resumed Thursday. A liner is being set today and bailing will begin tonight.

This Company is rigging up on the Wheelock track, 3500 feet southwest of the Gulf Barron producer. This derrick is now being viewed with keen interest and from the day it is spudded in until completed it will be the operation of chief interest in the entire field. It is in advance of production in the southwest by about one mile. The nearest producer is the Humble Davis well, it came in this week for 7,000 barrels flush.

The field, yet undefined after five months of activity, seem to be swinging to the west more than it was thought that it would by the fraternity at first. This is stimulating work on tests that are due to join the din of drilling at once. Among such operations are the J. K. Hughes Developing Company's well on the southeast corner of its Alexander tract. It is believed that this is certain for production.

The Humble Davis 2, located in the northwest corner about 1500 feet from the Davis 1, is a derrick.

Much interest centers today in the Gulf's O. C. Barron and the Buttram-Tidal's W. L. Phillips wells about one half a mile southwest of the Humble Davis gusher. The wells are now in the Austin Chalk and are being watched to see just where they go out of it. They are drilling around 2400 feet.

That both wells are considered with favor is shown by the activity which is at white heat all about them. The Buttram-Tidal interests have started three wells on the Phelps in addition to the one in the Chalk. These are a few hundred feet west of the north line of the lease.

Further up to the west, the Humble has a rig on the northwest corner of the Walke; the Gulf is rigging this on the Brooks and the Humble offsetting to the North of the Humphrey lease. These are about 1500 feet west of production. These are almost proven now to the Buttram Tidal Mary.

Wells are to be drilled as follows: Ramsey 1, the U. S. Tex Rubber Co. by Buttram Tidal No. 1 A. of Cotton; the E. L. Smith Ramsey 2 and the E. L. Smith Ramsey 3.

The Humble has a rig going and is moving completion on the Humble Humphrey, along the south line of the Gulf Murchison.

Locations have been made on the News by the Atlantic at the north west corner of the A. & P. Railroad lease on the Fleming, two wells off setting the Buttram Tidal; the Texas Company, offsetting No. 2 to the north. The Empire has made a location on its Sweatman 55 acre tract, a southwest of the Gulf Barron and about a quarter of a mile away.

Arrangements for the Good Will Trade Trip Tuesday and Wednesday, September 18-19, are fast being whipped into shape and during Friday Secretary Stollenwerck of the Chamber of Commerce was engaged in reserving automobiles and getting merchants, business men and professional men to pledge support of the trip.

Arrangements for a ten piece band have been made under the leadership of T. A. Oldfeather, director and the band will give a concert in each place visited. Merchants who have musicians in their employ, who will be necessary to complete the band are urged to co-operate in the trip by letting the musicians off for the day.

The two days routes have been figured out and while the two days will not cover all the points that should be covered, it is proposed that if the trip is a success to repeat it early during October, covering those points left out in the trip next week.

The following is the route:

Tuesday September 18th, assemble on Main street between McKinney and Bonham streets facing west preparatory to leaving town promptly at 8:30 a. m.

Leave Mexia 8:30 a. m. arrive Tehuacana at 9: a. m. spend 15 minutes there.

Leave Tehuacana 9.15 arrive Coolidge 9:45, spend 30 minutes there.

Leave Coolidge 10:11 arrive Prairie Hill 11:00 a. m., spend 15 minutes there.

Leave Prairie Hill 11:15 arrive in Mart 12:00 noon, spend 1 hour there.

Leave Mart at 1:00 arrive Ben Hur 1:30 p. m. and spend 15 minutes there.

Leave Ben Hur 1:45 p. m. arrive in Big Hill at 2:15 p. m. spend 15 minuets there.

Leave Big Hill 2.30 p. m. arrive Kosse at 3:15 p. m. suend 30 minutes there.

Leave Kosse 3:15 p. m. arrive Thornton at 4:15 p. m. spend 30 minutes there.

Leave Thornton 4.45 p. m. arrive in Groesbeck 5:15 spend 45 minutes there.

Leave Groesbeck at 6:00 p. m. for home.

Schedule for Wednesday, September 19th, assemble on East Main street between McKinney and Bonham streets, facing East preparatory to leaving Mexia promptly at 8:30.

Leave Mexia at 8:30 a. m. arrive Wortham at 9:00 a. m. spend 30 minutes there

Leave Wortham at 9:30 a. m. arrive Streetman 10:15 a. m. spend 30 minuets there.

Leave Streetman at 10:45 a. m. arrive Kirven at 11:15 a. m. spend 15 minutes there.

Leave Kirven at 11:30 a. m. arrive Fairfield at 12:15 non spend 1 hour and 15 minutes there.

Leave Fairfield at 1.30 p. m. arrive Teague at 2:30 spend one hour there.

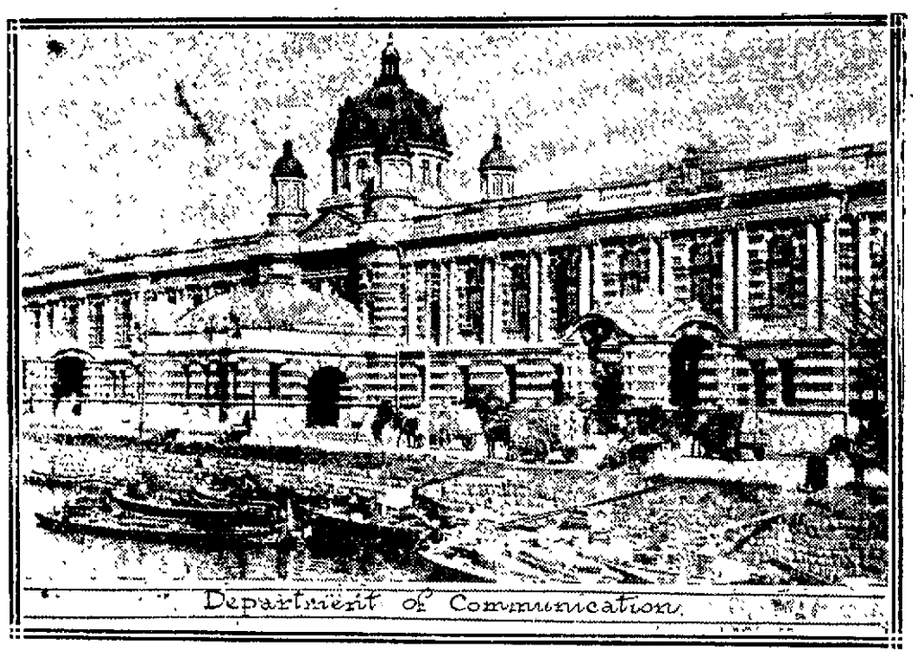
Leave Teague 3:30 for home.

Enroute home stops will be made at Simsboro and Cotton Gin.

The Chamber of Commerce wishes to again emphasize the statement that this Good Will Trade Trip is open to all classes of Mexia Business men and every one is urged to participate and take part in this trip. The expense of the trip will be exceedingly small. The expense of employing the band for the two days being the only item of any consequence, which will be shared alike by all those firms participating. A list of those firms and individuals who will take part will be published in Sunday's News, so every one is urged to phone their names to the office of the Chamber of Commerce, phone No. 81 if the Secretary should fail to see them and everybody is urged not to wait for an invitation as there is no restrictions on participation in this trip.

The Rotary Club the Lions Club, Sale manship Club and all other organizations are urged to take part as organizations or as an individual.

WONDERFUL GOVERNMENT BUILDING DESTROYED IN TOKIO.



Here is the building of the Department of Communications (Post Office Department) of the Japanese Government, in Tokio, totally destroyed by earthquake and flames.

Fans Lining Up For Entrance To The Big Fight

NEW YORK, Sept. 14.—Lines of fans stood before the Polo Ground bleachers gates like world series times, waiting to see the fight tonight. Many remained since midnight. Sweaters, overcoats and lunch baskets prevailed. The temperature reached 58 this morning and a few drops of rain fell. Tex Rickard, promoter, is not discouraged by the prospects for rain, and said the fight would be held tomorrow if it becomes necessary to postpone. Both fighters are in seclusion.

The fighters were weighed in before the boxing commission at 11 this morning. Dempsey weighed 192½. Firpo 216½. A great crowd gathered and police were called to prevent a rush.

EASTERN STAR TO MEET MONDAY NIGHT

Next Monday night will be regular meeting of the Eastern Star, and as there is some important business to be transacted a full attendance of officers and members is urged. Visitors will be welcome also.—W. M.

Spoiled Boy Is Groomed to Rule German

General Ludendorff, Hindenburg's right-hand [illegible] the World War, does not hope [illegible] ex-Kaiser Wilhelm back [illegible]many, but he does believe the [illegible]ists will re-establish a monarchy in Germany, and he is grooming the eldest son of Princess Hermine, the ex-Kaiser's second wife, for the job. He is Prince Hans Georg Heinrich Ludwig Friedrich-Hermann Ferdinand von Schoenaich-Carolath, 16 years old, overgrown and anaemic. He lives, with a court, in his Castle Antitz, in Upper Silesia. He is inordinately fond of candy and eats enormous quantities, despite the orders of his doctors. Hermine is set on having her son made Kaiser and already forces his attendants to address him as "Your Majesty."

Firpo's Father Prays For His Son To Win Fight

BUENOS ARIES, Sept. 14—August Firpo, father of Luis, started the day praying for the success of his gladiator son in his fight against Dempsey. When asked for an opinion he crossed himself and said Dempsey would not last four rounds. Elaborate plans are being made to celebrate in case Firpo wins. The druggist, from whom Firpo worked for years, has installed a radio set and wagered 400 pesos on his former clerk. Police doubt if they can restrain the crowds if Firpo wins. There is very little betting, however.

SCHOOL FOR MEXICAN GIRLS TO BE ESTABLISHED

DALLAS, Texas, Sept. 14.—Acceptance of 200 acres of land and a gift of $10,000 cash to establish a school for Mexican girls at Taft was authorized at the Thursday session of the Texas synod of the Presbyterian church. Mr. and Mrs. Joseph F. Green donors of the gift, were given a vote of thanks. The proposed school will be opened by September 1924, it is planned.

MADRID, Sept. 14.—King Alfonso charged the Barcelona revolutionary leader, Captain Primo De Riviera, with the formation of a new giverment. This followed the resignation of the present government. Alfonso arrived this morning to take charge of the revolution torn country, and was accorded a tremendous welcome. De Riviera, shortly after the King's arrival, issued a new proclamation to the army, saying: "I prefer death to servitude and am not inspired by the example of Mussolini, but by our own great hero, General Prims." The situation is quiet, according to reports.

The selection of the revolutionary leader to form a government indicates the revolution ended in a complete triumph for the military juntas.

J. K. Hughes Busy In Powell Field

J. K. Hughes is being commended on every hand by citizens who appreciate his service in offering to pay for a demonstration home to be built by The Mexia News.

Activities in the Powell field, where the Hughes Developing Company has vast and valuable holdings and producing properties, have demanded much time from Mr. Hughes this week and the conference with him and the News representatives has been delayed.

The citizenship will watch the progress of this home, it is believed, with a growing friendship for this big oil man who is constantly proving his love for Mexia.

The Hughes Developing Company has made a location for a well in line with the westward trend at Powell and it is believed that this company is due for another valuable find in the field that has proven such a great asset for the Hughes stockholders.

New Wells Are Begun at Laredo

LAREDO, Texas, Sept. 14.—Tools have been set up on the Morgan-Gibble No. 1 of the Morgan-Gibble Oil company, located on block 7, survey 335 of Webb county and near the large gasser of the Caroline-Texas Oil interests, being only about three-quarters of a mile to the northeast. The well will be started immediately and rushed with all possible speed to the producing sand found in the Carolina-Texas well. Most all of the large concerns hold acreage in the vicinity of the Carolina-Texas well, some of which was purchased when the large gassers were brought in, others purchased offset acreage when the core was taken out of the Carolina-Texas No. 5, several months ago.

The Laurel Oil company spudded in its No. 4, test this week. It is located as an offset to the J. W. Quigg et al No. 2 and is on the north west part of block 68 of the Los Ojuelos grant of Webb county.

The Elm Oil and Gas interests at the depth of 2100 feet picked up a sand that showed heavily of gas. Casing was set at 2020 feet which resulted in water trouble. The well was drilled to 2100 feet when another sand was cored. The oil is of the 45 gravity variety and is similar to that found in the Magnolia No. 1 at 2040 feet. Efforts are now being made to shut off the water.

The B. B. B. & F. Oil company's No. 1, is now standing at the depth of 2505 feet. The orignal contract called for a test to 2500 feet or oil. It is now understood that an additional contract will be let to drill the well to the depth of 3500 feet. This test is located on survey 100 of the C. Gonzales ranch, about 35 miles northwest of Laredo, in Webb county.

The latest report from the Cole Petroleum company's No. 3, is that the well is drilling below 3485 feet in lime rock with considerable oil and gas showing. According to information obtained from those who visited the well and conversed with officials of the company as well as the driller, all seem to think they have a well at this point but that the test will be drilled through the rock in hopes of picking up a sand under same. Every one connected with the company is jubilant and feels that it is only a question of a short time before they will open up a field, then that will really justify the present name "Boom Field."

Stunt Flyer In Houston Dies Of Injuries When Plane Collapses

HOUSTON, Texas, Sept. 14.—The body of C. L. Kennard, "stunt" aviator, who was burned to death when his plane crashed to the ground and caught fire here last night, was being held here today pending funeral arrangements.

Kennard had just completed a difficult stunt and his plane was flying low over the ground when the landing gear became entangled in a suburban trolley wire. The plane was dashed to the ground, catching fire. Kennard was burned beyond recognition before he could be extricated.

ANOTHER ORANGE DEEP WELL IS IN FOR LARGE FLOW

ORANGE, Texas, Sept. 13.—The Mutual Oil company's No. 4 Chesson came in Wednesday afternoon at 4289 feet with an initial flow of about 2500 barrels of pipe line oil.

This well is declared to be the star well of the field, and like the last best wells, is producing from the deepest sand. This well is a workover, it having produced from a shallower depth for several months before the reworking job was started.

The Humble Oil and Refining company started drilling No. 20 Chesson Wednesday. This is one of the few new wells that have been started in Orange since the beginning of a movement pointing toward the curtailment of activities.

The Humble's No. 18 Chesson, which came in a few days ago, yielding at the rate of about 200 barrels a day, has more than doubled its output of production in the past two days and in the meantime the water output has been substantially decreased.

The American National Oil company was engaged Wednesday morning reaming down in No. 1 Joe Winn, where there was an oil showing that attracted considerable attention within local oil circles. This well will be reamed down to a depth around 360 feet, where it is possible that the six inch casing may be set. The work of pumping mud into the well was started Tuesday afternoon in order to prevent a gas blow out, which was plainly threatened.

San Antonio Youth Held For Murder of Child

SAN ANTONIO, Texas, Sept. 14.—As the result of intense feeling Clarke Gofield, 17, is held in the county jail for safety after he is alleged to have confessed to murdering nine year old Irene Hitzfelder. The girl's body was found near Spring Branch with her head beaten in. Examination showed criminal assault.

Old Crimp Has Arrived

Cotton Crop In Texas Larger Than Expected

DALLAS, Texas, Sept. 14.—Cotton production in Texas will be much larger than at first believed, following a week of general rains and a week of fair weather, it was forecasted by crop experts here today. Despite damage to the cotton crop by heavy rains in some sections, the output generally will show a fairly heavy increase, it was believed.

Picking is under way and receipts are reported far in advance of those this time last year. For the most part, farmers are selling their cotton as fast as it is picked although some are holding it for an advance. Approximately one-third of the crop has been picked in North Texas and from one-half to three-fourths in central and South Texas.

A shortage of cotton pickers is hampering the work of gathering the crop.

Mercury Drops Overcoats Brought Forth

The first indications of winter are reported from sections of the middle west and northwest, reaching as far south as Atlanta, Ga. At Kansas City overcoats were worn as the mercury dropped below 50. Sudden drops in temperature are reported in Georgia and other points in the South.

Cleveland experienced the first snow flurry of the season.

Warmer weather is in prospect for the week-end.

Ensign Booth To Go to Meeting to Be Held In Waco

WACO, Texas, Sept. 14.—Waco will be host to two distinguished Salvation Army officials Saturday and Sunday. Lt. Col. George Wood, commander of the Southwestern division of the Salvation Army and Ensign Harry H. Booth, divisional secretary of young people's work will be here two days.

Both Col. Wood and Ensign Booth are on tours of inspection. The divisional commander will come direct from headquarters in Dallas after a visit to New Orleans and Baton Rouge, La., and the ensign will arrive here Saturday from Mexia.

Colonel Wood is in command of all Salvation Army activities in the Southwestern division, which includes the states of Texas and Louisiana. Ensign Booth has surervision over work among young people in the 8 corps of the division, and is encouraging more intensive work in that field.

Captain and Mrs. H. C. Burch, officers, of the local Salvation Army corps, are making arrangements for the reception of the divisional officers.

While here Colonel Wood will confer with the Waco Salvation Army advisory board, of which A. M. Goldstein is president, and with V. Walter Pryor, Salvation Army campaign director, relative to the forthcoming annual home service appeal in this city.

THE NEWS PUBLISHING COMPANY
TELEPHONE 146

We want the news, all the news of all the people, while it is news, and requests the readers to send in or telephone 146 or 361 news items and personals of their friends and acquaintances.

Entered as second-class matter, February 26, 1919, at the Postoffice at Mexia, Texas, under the act of March 3, 1879.

The Lions Code of Ethics

1. To show my faith in the worthiness of my vocation by industrious application to the end that I may merit a reputation for quality of service.

2. To seek success and to demand all fair remuneration or profit as my just due, but to accept no profit or success at the price of my own self-respect lost because of unfair advantage taken or because of questionable acts on my part.

3. To remember that in building up my business it is not necessary to tear down another's; to be loyal to my clients or customers and true to myself.

4. Whenever a doubt arises as to the right or ethics of my position or action towards my fellow men, to resolve such doubt against myself.

5. To hold friendship as an end and not a means. To hold that true friendship exists not on account of the service performed by one to another, but that true friendship demands nothing but respect, service in the spirit in which it is given.

6. Always to bear in mind my obligations as a citizen to my nation, my state and my community, and to give to them my unswerving loyalty in word, act and deed. To give their freely of my time, labor and means.

7. To aid my fellow men by all fair and honorable means to increase my ability to render a greater service and a greater value to the world.

8. To keep constantly before me the ethics of my calling; to build up and not destroy.

The large flowing production of the C. L. Smith Oil Co. on its Ramsey lease in the Powell field is holding up remarkably well. The thickness of the sand on this tract and the depth to which it was penetrated, should provide a long continued production, even after the wells are put to swabbing and pumping. Its Powell holdings place the E. L. Smith Co. in a very strong and stable position.

Col. Humphreys finally closed his deal with Pure Oil whereby that company takes over control of Humphreys Oil Co. at $50 per share, payable $20 in cash and the balance in ten monthly installments at 7 per cent per annum interest. This sale, which is on a 2 for 1 basis is very gratifying to local holders of that stock.

The Mexia Trade Trip, under the auspices of the Chamber of Commerce, bids fair to be one of the most significant events in the history of this city's efforts to create a better spirit, the spirit of Good Will throughout this territory. Let's go!

Ranger City Commissioners have recently passed an ordinance barring the left hand turn at two of her Main street corners. Not a bad idea to think about.

City Fathers in many places are advising their police departments to enforce the curfew law.

First Shristian Bible Class.

We are very anxious to increase the membership of our Men's Bible Class at the First Christian church.

If you are attending Sunday School at some church, we do not ask you to change, but if you are not we appeal to you to join us. Our class meets every Sunday morning at 9:45 in the main auditorium, and if you will come every member will do his best to make you feel at home, and enjoy yourself as you once did when you were a boy and went every Sunday.

We are all creatures of habit, you are out of the habit and do not like to go. Do what you know you should: Get the habit again and you will like it.

We will be mighty glad to see you present Sunday morning.

W. B. Landrum, teacher.

Mrs. J. H. Redden, and daughter, Mrs. Ellene, returned Wednesday night from an extended visit with her son, Horace A. Davis in New York City and New Jersey. They report a most delightful trip.

Hear the Mexia Elks band at the Freestone Fair tonight.

CENTRAL TEXAS PRESS
By N. P. Houx.

MEMBER TEXAS PRESS ASSOCIATION

Not being much of a fan, except a natural desire to see the home team win, we apologize for dipping into the matter, but it seemed entirely proper that after squabbling all during the season the play off for the pennant in the Texas Association should end in a fuss without deciding which of the minority clubs playing the runoff was the better—or worse. The term "minority" is properly applied in this case, when you figure up the games for the entire season it will be found that the Mexia club won more games than either Austin or Sherman. Looks funny, doesn't it, but it is possible under the "double" method of playing the season and the "double crossing" policy adopted by the other clubs against the best team in the league. If that is the way "professional ball" is to be played in future Mexia would do well to quit the game and spend her money on something more profitable and honest.

And, unless the bill collectors quit coming so thick and fast, we may have to adopt an attitude of passive resistance.—Terrell Transcript.

Why not issue a moratorium proclamation?

An exchange suggests that Uncle Sam should break up bootlegging if it takes the Secretary of War Weeks to do it.

Several cities in Texas are getting excited over oil prospects. But they should not desert their cotton, corn and grain fields. They should remember the case of Breckenridge, whose citizens shouted this fall when the first bale was marketed there in four years. Oil is all right while it lasts, but it doesn't continue to flow liquid gold forever.—McKinney Courier-Gazette.

Cotton and corn, and wheat and potatoes will last much longer as a money crop. Stick to the plow, boys.

There are ten and a half million motor driven vehicles in the United States according to statistics, and eighty per cent of the drivers still think they can beat a passenger train to the crossing.—Sam Miller in Mineral Wells Index.

Some of them found out that it can't be did, but they are not driving any more as there are no autos on the other side of the river Styx.

Writing the Dallas News, from Cisco, a correspondent professes to see in the Japanese earthquake another sign spoken of in the Scriptures indicating the near approach of the end of time. That being true, let us all devoutly hope that it will not come until Democrats have another chance at the pie counter. The country will need the purifying qualities of Democracy's saints following four years of Republican misrule in order to put it in shape to meet the evenging face of the destroying angel.—Denison Herald.

After Democracy the milleninum, is it?

Editor Sam Miller of the Mineral Wells Index, who has had his teeth extracted, descants at length upon the refined and exquisite horrors of the dental parlor. He paints a picture that makes Dante's little epic read as mild as a high school graduate's thesis on "Beyond The Alps Lies Italy." The trouble with editor Miller is that he didn't come to Terrell to have his teeth extracted. No use for Mineral Wells people to think because they have the best mineral water in the world that they have a monopoly on the whole therapeutic and surgical circus. We had our teeth extracted in Terrell; and while the job was being done we lay on the table in a state of blissful slumber, dreaming that we owned in fee simple a thousand acre tract in the "golden lane" at Mexia. We thought Editor Houx of the Daily News brought the intelligence that the greatest gusher in the history of the field had just been brought in on our tract. It was all so real that when we awoke we started to take out our roll and pay the dentist on the spot for the job. Then the curtain fell.—Terrell Transcript.

And you "woke up" and found that it was only a "dry hole"—several of them in your mouth.

MARLIN IS WATCHING U. OF T. AND A. & M.

MARLIN, Texas, Sept. 14.—Marlin football fans will probably be given a treat in the turkey day game beween Texas and A. and M. at College through the circumstances that have brought the two teams together with a Marlin boy piloting each team from the quarterback position. Sport dope favors George Gardere for this position on the Texas eleven while "Shm" Knickerbocker cinched the same position on the A. and M. team with his field generalship last season.

SOUTHERN PACIFIC GIVES $25,000 TO STRICKEN JAPS

Local offices of the Southern Pacific system here have been advised that the road has subscribed $25,000 towards the fund that is being raised in the United States for relief of the victims of the recent terrible disaster in Japan. This money has been sent by the S. P. lines to the proper authorities.

In addition to this generous donation the Southern Pacific has also agreed to transport supplies for Japanese relief free over its system.

THE EDITORIAL OF THE DAY

SURPLUS GASOLINE STOCKS DON'T EXIST WITH SINCLAIR OIL

The overproduction in gasoline seems to be diminishing rapidly, if the report that the Sinclair Company is marketing all the gas it can produce and that it has no surplus stock on hand. It absolutely controls the gasoline market of Cuba and is a contender in practically all of the retail markets of the United States and France.

A news dispatch out of Chicago, Sinclair's headquarters, states that the Sinclair Oil Company has no surplus stocks of gasoline. Gasoline is being shipped to the consumer as fast as it is produced. Cost of production permits a profit even at the low prices prevailing in certain districts.

The company is in a strong financial position and balance sheets show approximately $25,000,000 cash on deposit.

It also states that the producers and refiners of the Chicago district hold California production wholly responsible for demoralization in crude and gasoline prices. Also, it is pointed out, that buyers are anxious to lay in record-breaking stocks of crude at the present low prices.

In the meantime the Standard and all big marketing concerns are building storage at a rapid rate. In Wyoming, Kansas, Oklahoma and Texas storage is being built more rapidly than ever before in the history of oil and cheap oil is running into these tanks. The marketing companies in cutting the pipe line runs have established a new business in that they are taking the producers' crude for storage and charging at the rate of two cents per barrel a month. Just what effect that new departure will have on future markets remains to be seen, but the small producers find themselves absolutely at the mercy of the big concerns because of the fact that the smal fellows do not have storage facilities for the caring of their own product. Many of the best minds in the oil business however, believe that the cutting in pipe line runs is eventually going to reduce production and prevent further exploration work.

Perhaps a lot of this overproduction talk has been more or less bunk. —Ex.

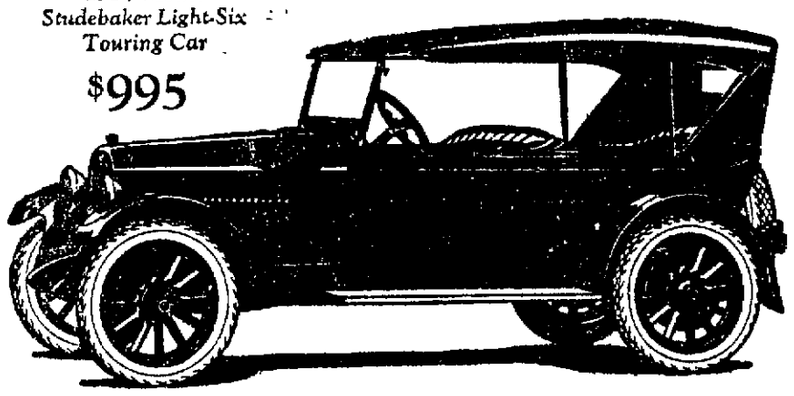
INTEGRITY Studebaker SERVICE

1924 Model
Studebaker Light-Six
Touring Car
$995



Don't Measure This Car By the Price

There is no product where price so fails to indicate value as in a motor car.

The difference in prices rarely represents a corresponding difference in values. Cars are being offered at prices greatly in excess of the Studebaker Light-Six which do not equal its intrinsic value.

Likewise, many cars selling for less, are high-priced compared with the Light-Six. They are not in the same class because they do not represent as great intrinsic value for the money invested. The Studebaker Light-Six is the real quality car in the thousand-dollar field.

The low price of the Light-Six is due to Studebaker's vast physical and financial resources, the saving of middlemen's profits by reason of complete manufacture in Studebaker plants, and low manufacturing and sales overhead per car because of continuous large volume.

The satisfaction delivered by the Light-Six is universal. Its performance has won staunch friends everywhere. This is due to its advanced design and construction.

For example, the crankshaft and connecting rods are machined on all surfaces. This practice, which is largely responsible for its virtual freedom from vibration, is exclusive with Studebaker on cars within hundreds of dollars of the Light-Six price.

If you are thinking of investing about one thousand dollars in a car, then in justice to yourself, consider the Studebaker Light-Six first. Come in and see it. Drive it yourself. Driving is believing.

Latest News From The Oil Fields

Mexia, The Center Of Oil Activities

For the past two years Mexia has enjoyed the reputation of being classed as one of the most important oil centers of the Southwest. Millionaire oil men and gigantic companies maintain headquarters here, from which they go out into many fields in many states and operate in their chosen lines.

The vast extent to which this great industry has grown here and proof conclusive that Mexia is the center of oil activities, the following tabulations are taken from the latest issue of the "Classified Business Directory of Mexia" as submitted to the public by the American Printing Company:

Oil Agencies—Wholesale

Gulf Refining Co., H. & T. C. tracks, South Mexia; Telephone No 548; John Groover, Manager.

Humble Oil & Refining Co., H & T. C. Tracks, South Mexia; Wallace Adams, Manager, Telephone No 500, P. O Box No 495

Magnolia Petroleum Co., Texas St., and H & T C Tracks; Bon Hickman, Manager; Telephone No. 471; P. O Box 501

Pierce Oil Corporation, H & T C. Tracks, South Mexia; V. Gantz Manager, Telephone No. 551; P O Box No. 212.

Texas Company; H. & T C Tracks, South Mexia Telephone No 9029

It has been said, and truly so, that a city is more fortunate in being made the home and operating headquarters of a number of oil men than to possess the oil field at its very door and not be able to interest the oil man in locating. Mexia is fortunate in that it has the oil fields at her back door as well as the residence of an numb of big oil men and the operating headquarters of several large companies.

Many oil companies now operating in the Mexia field are making plans to remain definitely for fifteen or twenty years, with assured production.

Oil production varies greatly, even in individual well, for many reasons. The history of a large number of wells in the Mexia field indicates that production will continue on a satisfactory basis for many years to come. Many wells, when production gets low, on being cleaned out permitted to test a short while or as in some instance drilled deeper show heavier increased production indicating that the source of oil is in no wise being exhausted.

Three More Wells at Luling.

LULING, Texas, Sept. 14.—With the completion of the No. 5 and 6 Rios wells by the United North and South Oil company and the Brown No. 1 well of the Midwest Texas Oil company, three more good producers were added to the Luling field. These producers are in the vicinity of the original discovery well, the Rios No. 1, the two producers of the United North and South are good for 500 barrels, while the Brown well is making 1,200 barrels.

Casing in the latter well was set at 2,078 feet with the bottom of the hole reported at 2,145 feet, this being slightly higher than the big producers of the Grayburg Oil Company, which the well offsets.

To Resume in Freestone County

TEAGUE, Texas, Sept. 14.—Interest in the deep test at Young, Freestone county, which shut down Friday at a depth of 3,153 feet, was heightened by the announcement that drilling is to be resumed.

The shutdown was occasioned by the lack of fuel, which is being hauled to the location, twenty-five miles from the railroad. It was also said the formation showed the drill is approaching the Woodbine sands.

HARVEY GRUBB GOES BACK TO CAROLINA

MARLIN, Texas, Sept. 14.—Manager Harvey Grubb of the Corsicana Gumbo Busters, former Waco third baseman in the Texas league days, left for his home in Greensboro, S C., after taking the mineral baths.

Another Campaign Against Oil Frauds

WASHINGTON, Sept. 13.—Assistant Attorney General Crim and Henry Zweifel, United States attorney at Fort Worth, conferred with President Coolidge and outlined a new campaign against oil stock swindlers in Texas and Arkansas oil fields, to be started soon by the Department of Justice. The president approved the plan, they said, ordering vigorous prosecution.

Mr. and Mrs. C. F. Holleron and little daughter Joe have returned from a two weeks outing spent in "seeing Texas first." They made the entire trip in their car, encountered much rain and bad roads, but had no mechanical car trouble. They visited Houston, Galveston, San Antonio and New Braunfels, with side trips inland. Mr Holleron is employed by the Sinclair Oil Company.

When It Doesn't Rain It Doesn't Leak

A LEAKING roof doesn't cause much trouble while the sun shines.

An inferior valve cup can't do much harm in the supply house store room.

Actual oil pumping is the only true test of a valve cup, just as a rainstorm proves the value of a roof. And oil men, old in the field, know that Darcova Valve Cups stand up strongest where service is most severe. That's why you'll find "Darcovas" wherever oil is pumped in greater quantities, at lower cost.

Look for the name. Be sure you get the genuine

LULING SUFFERS ENCROACHMENT OF WATER IN OIL FIELD

LULING, Sept. 14.—Work of plugging back a number of wells in this district is now under way in an effort to shut off bottom water, that threatened for a while to ruin several good producers. The work is being carried on under the personal supervision of an expert from the United States Bureau of Mines.

While the water trouble has not reached an alarming state all operators agree that the time is opportune for handling the situation, it being remembered that prompt action is what saved many of the big wells in the famous Fish-pond district of Mexia which apparently had been drilled too deep. This latter is what is believed to cause the water to break through in this section several wells having been drilled thru a second cap-rock, encountered after entering the lime.

While several good producers were completed during the week, all were in the proven area with the result they attracted little attention. Chief interest still centers in the many wild cats going down and which are scattered throughout Caldwell, Guadaloupe and Gonzales counties. Of these tests the four wells to be drilled by the United North and South Oil Co. in Guadaloupe county, the Blackstone-Thorman, Cole No. 1 in the northeastern part of Caldwell county and the Fens'and Oil Co. No. 1 well on the Whittlesey farm in Gonzales county appear to have the best chance of obtaining production.

Powell Paragraphs

A well is to be drilled on the Humble tank farm tract between the town of Mildred and Navarro, according to announcement made today by Elliott, Sparkman & Mauldin, drilling contractors

The drilling contractors have secured a drilling site, and will start building derrick today. The location is on the Gill tract, which the Humble purchased for its tank farm. This land was bought with half the mineral rights reserved

R. E. Brooks Jr., of Houston, has made a drilling location on the Cerf tract, and is building a new derrick

A new derrick is being completed on the twenty-five acres Crews lease held by the Buttram-Tidal Oil Company. This location is an extension of operations several hundred feet west of the Gulf-Barrow and the Buttram-Tidal-Phillips.

Ramsey No. 3 of the U. S. Tex Oil Corporation was completed early Wednesday morning with a flow gauging 200 barrels the first hour according to announcement.

No. 4 Ramsey lost the bailer and a fishing job for it is under way. No 2 Ramsey is under cement.

The U. S. Tex completed its Ramsey No. 1 August 12, it coming in with a flush production of 15,000 barrels. This well opened the big operations in the territory south of the Humble Kent big well.

The Gulf Production company has a total of twenty-seven producing wells in Corsicana deep fields at the present date. It also has a total of fifteen active drilling operations, with several nearing completion.

A new completion made by the Gulf on the Bush 113 acres lease Tuesday is an off-set to the Humble company's Ramsey test in the southwest corner of the 163 acres Ramsey tract. The Humble made a new location on the Mrs. J. C. Walker Pugh forty-two acre tract. This location is the fourth one on this tract and is in the extreme northwest corner. It is a new off-set to the Gulf's Bush location.

The Humble company now has a daily production in the Corsicana oil field of 63,770 barrels.

J. K. Hughes has been a busy man in the Powell field most of this week. His Developing Company is high among the producers of the thriving young field.

The Humble Oil Company has a number of wells due for completion within the next day or two.

Brown No. 2 is waiting on the cement to set at a depth of 2,913 feet, No. 3 today set six and five-eights inch casing at 2,924 feet, and No. 4 at 2,034 feet. Irvine No. C-5 is waiting on the cement to set at 2,853 feet.

Kent No. 2 is swabbing in at 2,916 feet. No. 6 and No. 7 also are expected in within a day or two.

Work of cementing the casing on the Witherspoon Oil Company's Burke No. 6 test is under way today.

The new drilling location known as No. 7 is rigging up today. This location is 350 feet west of the No. 6.

Work of rigging up the location of No. 8 is also under way. This test is 310 feet north and slightly east of No. 7.

The cement plug is being drilled out of the Buttram-Tidal Oil Company's Ramsey No. E-5 test today.

The Humble Irvine No. 8 is setting liner.

A heavy rain fell bordering on the western extremity of the oil fields Wednesday afternoon. The rain extended from the Humble tank farm south of Mildred to Angus and almost to Richland. A heavy cloud for an hour hung over that locality and it is reported that whole section was well drenched. It failed to extend any distance to the east of the Mildred-Navarro road.

R. L. Hoover, Deputy Oil and Gas Commissioner, has been busy in Powell this week. He and Mrs. Hoover have returned from their vacation which they spent in Kentucky.

E. L. Smith, President of the E. L. Smith Oil Company, has returned from Corsicana after a busy week in Powell, during which time a fishing job was completed on the company's Ramsey 2.

PETROLEUM PARAGRAPHS

Shreveport in Northwestern Louisiana is an important industrial city today, due to not only its splendid railroad facilities, but to the great amount of cheap gas for industrial purposes. First gas well in that area was completed in 1905 near Oil City, La.

No oil prospects of commercial value have ever appeared in Minnesota, says W. H. Emmons, director of the Minnesota Geological survey, who writes, "and we consider such prospects extremely unlikely. Therefore the State survey has never published any bulletins on the subject."

What does a gallon of crude oil weigh? If the oil tests 18 gravity it weighs 7.883 pounds, and the weight decreases as the gravity increases. Highest known oil is found in New Mexico—60 gravity—and it would weigh 6.157 pounds to the gallon.

When operating on a normal basis the seven refineries in the Tulsa district move 261 cars of refined oils out a day. Of this 100 cars are from Cosden and company; 20 from Producers and Refiners corporation; 50 from the Texas Company; 60 from Pierce Oil Corporation; 12 from Constantin Refining company; 12 from Chestnut & (Phienix) Smith corporation, and seven from Tidal Refining company.

First commercial oil found in Butler county, Kansas, was in June, 1914, near the town of Augusta, at 2500 feet. Although Greenwood is encroaching on Mutler, it is still the leading district in Kansas today.

Every oil piol has it limitations. The Cushing pool of Creek and Payne counties, in Oklahoma, said to be the greatest source of oil supply ever discovered, quality considered, once produced 400,000 barrels a day. Today it is producing around 26,000 barrels a day.

Present over-production in California recalls that in 1917 producers in that State were wrought up over threatened shortage, due to restriction on drilling upon government lands.

Oldest producing well in the world is said to be that owned by Joseph E. Robinson of Oil City, Pa., and heirs of W. H. Cochran, deceased, of Mercer, Pa., on their 326-acre farm, two miles north of Oil City. It was drilled shortly after Colonel E. L. Drake drilled in his first well on Oil Creek late in 1858. It came in for 175 barrels a day.

More than $30,000,000 is spent annually for dry holes, according to estimates compiled by the nited States Bureau of Mines.

Since 1912 when the first Osage lease sale was held the Osage have received $112,594,849.76 in royalties, bonuses and rentals.

The average barrel of crude oil contains the following: 47.49 per cent gas and fuel oil, yielding 19.94 gallons; 27.51 per cent gasoline, yielding 11.55 gallons; 10.23 per cent kerosene yielding 4.30 gallons; 7.49 per cent miscellaneous products, yielding 3.15 gallons; 4.34 per cent lubricating oil, yielding 1.82 gallons; .83 per cent coke, yielding .35 pounds, and .31 per cent wax, yielding .13 pounds.

Interests identified with the Massachusetts Gas company are spending between $3,000,000 and $4,000,000 for a blast furnace plant, the first to be built in New England. This will give the parent concern both an oil refinery and a coke works.

FOR SALE AT A BARGAIN—A good five room house (recently repapered and painted inside), hall, four closets, 6 foot porcelain bath tub, gas, electric lights, sewerage, hot and cold water, boiler, Majestic range, china closet, matting and linoleum in five rooms and hall, book case, Davenport, and wardrobe, all in good condition and unincumbered. 256 Register In The High School

According to Principal R. M. Andrews of the Mexia High School, 256 students matriculated the first two days of the present school term. Of these 106 were boys and 150 were girls.

The attendance is considered very satisfying. It is expected to be larger, as many more students are to enter all along.

Mr. Andrews states that of these 40 are Seniors, which will represent a much larger class than that of last school year. 51 are members of the Junior class. 70 are sophomores and 96 are freshmen.

Everything worked smoothly the first day and every student went to class Wednesday just like he will go all the year. Mr. Andrews had worked out a system beforehand that worked with clock-like regularity and there was not a hitch in the matriculation and classification of the big student body.

CHARLES RAY SOON AS ROMANTIC LOVER

If all the world loves a lover, a treat is in store for the patrons of the National Theatre on today and Saturday when Charles Ray's second United Artists production, "The Girl I Loved," will present that favorite star as one of the most ardent and dramatic swains that ever sought a woman's hand. Mr Ray is said to reach acting heights in this picture never surpassed and seldom equalled on the screen.

The star began his stellar career in a very dramatic role seven years ago In the years since his versatility in comedy has almost obscured his great ability as an actor of finer parts In "The Girl I Loved" this ability come out, it is said, with tremendous force before a picturesque background that is lively and gay.

The events occur among the happy rural people of Inriana from 1840 to 1860, and compose a panorama of typical American life that is now seen rarely. Throughout this panorama runs the personal love story of the poet James Whitcomb Riley as he related it in the verses from whose title the picture takes its name.

Under his United Artists contract Charles Ray is now making only big salibre productions, two a year, and this he regards as the greatest of his career. It is the tale of two men who sought a maiden's hand, one of them with tragic ardor. It is clean, like all Ray stories, but carries a tremendous punch. The girl is Patsy Ruth Miller, and it is predicted that the beauty and talents she displays in "The Girl I Loved" will make her a star forthwith.

Joseph De Grasse, who is responsible for Ray's previous United Artists picture, "A Tailor-Made Man," one of last year's big hits, also directed his latest. The cast also includes Ramsey Wallace, one of the stage's actors of international celebrity.

TOM ROSS TRIAL

ABILENE, Texas, Sept. 13.—The jury in the case of Tom Ross, cattleman on trial on a charge of murdering H. L. Roberson, cattle inspector, was expected to start its deliberations late Friday. Testimony probably will be concluded today.

Wednesday, Ross took the stand in his own defense and told the story of the killing of Roberson in the lobby of a hotel at Seminole last April. Other witnesses substantiated Ross' testimony that Roberson had threatened him.

Roberson and Dave Allison were killed the night of April 1. Ross and Milt Good were arrested and charged with the murder. Both are under sentence as a result of the first trial, two counts being placed against each one.

Must Invest Funds In Cheaper Bonds

AUSTIN, Sept. 13.—University regents were notified that they could not invest University funds in anything but state and federal bonds, under the State Constitution, the Attorney General's Department announced. The regents wanted to invest in independent school district bonds because they brought larger returns.

EAST IS BEHIND

COLUMBUS, Ohio, Sept. 13.—For all its many colleges, universities and libraries, the so-called effete East falls sadly behind the West, if quantity magazine reading is any indicator.

A survey made by Ward G. Reeder, assistant professor in the department of school administration, Ohio State University, shows that the people of California lead the nation in the consumption of magazine reading matter.

The survey was based on the circulation figures of the 10 magazines having the largest circulation. It shows that Californians read about six times as much as Mississippians, who bring up the rear.

It is a curious fact that based upon the combined circulation of these magazines in each state contrasted with the population eight Western states place among the first 10. Only Connecticut and Massachusetts are there to represent the East, where most of the magazines are printed. Ohio, the next Eastern state, ranks eleventh.

In similar fashion most of the Southern states are to be found at the bottom of he list. Of the last 17 in the list only two are north of the Mason and Dixon line.

Based upon the proportion of the readers of those magazines to the population, he points out, that the Pacific states (California, Washington and Oregon) outclass all other groups by a large percentage. He also says that the ranking of the states on reading as shown by the survey is about the same as their ranking on intelligence reached by army psychologists during the world war.

The District of Columbia led the nation in reading, judged by those magazines. There Prof. Reeder found 81.7 of the population were magazine readers. The ranking of the states follows: California, 25.8 per cent; Oregon, 24.9; Washington, 24.1; Nevada, 21.25; Wyoming, 20.9; Montana, 18.5; Colorado, 17.9; Massachusetts, 17. 8; Connecticut, 17.2; Idaho, 17.0; and Ohio, 16.8. Illinois ranked twenty third and Pennsylvania twenty ninth.

LARGEST CROWD

The largest crowd of the revival is expected to assemble at the big tent tonight to hear the sermon by evangelist Garrison, which he assured his auditors last night would be a typical twentieth century sermon concerning some of the great sins of the day. How Mrs. Lott married her daughters off is the subject of the sermon.

The interest in the revival is constantly growing. The big tent will likely be taxed to its capacity to hold the congregation tonight.

"The Holy City" will be sung by Mr. Carroll.

Hear the Mexia Elks band at the Freestone Fair tonight.

McCULLOUGH LEASES LAND NEAR OIL WELL

MARLIN, Sept. 14.—Ed McCullough, former mayor of Waco, has purchased an oil lease of ten acres north of the Post Oak company's well, near Chilton, for $1500 or $150 an acre.

Hear the Mexia Elks band at the Freestone Fair tonight.

NEW SURE WAY TO END BILIOUSNESS

Torpid Liver Fills Body With Poisons—Pepsinated Calomel Guaranteed to Relieve Between Sundown and Sunup—No Nausea.

Calomel is the only medicine that will actually reach the liver, but ordinary calomel is so drastic that many have deprived themselves of its fine effects because of its harshness. This objection has been overcome in Pepsinated Calomel. Many who formerly could not take calomel are finding a most acceptable remedy in Pepsinated Calomel because it is English Calomel (which Doctors recognize as the standard of purity), treated with pepsin and other soothing ingredients that not only stimulate the liver to normal action, but sweeten the stomach and aid digestion. Many report that the use of Pepsinated Calomel purges the system of poisonous waste, brings back appetite, causes dullness to disappear and makes them "feel like new!"

Bennett's Drug Store and all reliable druggists recommend and guarantee Pepsinated Calomel to bring relief between sundown and sunup or your money refunded. Try it—we guarantee you'll feel better tomorrow. (Adv.)

This Concerns Every Child's Welfare

MOTHERS are just realizing the remarkable energy-producing value of Karo Syrup—and *why* it is such a wonderful food. It is because Karo contains a very large percentage of *Dextrose*, the great energy food—and is itself in a form to be most easily digested and absorbed into the system.

You could not live long without *Dextrose*. The starch and sugar in all the food you eat—bread, vegetables, potatoes—must be changed into *Dextrose* before your system can use it as an energy food. Give your children plenty of rich nourishing Karo—because it not only supplies the demand for a "sweet" but is real energy food.

Let your grocer be your Children's Health Doctor—ask for Blue Label or Red Label Karo—both of equal nutrition.

* * *

FREE—A booklet about *Dextrose* every mother should read. Explains why children thrive on *Dextrose*. Sent free with beautifully illustrated 64 page Cook Book. Write

Martin Johnson was a visitor in Teague Wednesday night.

JUST OUT—October "Pictorial Review." The big autumn fashion number. Pioneer News Stand.

FELT TIRED, SO TIRED

Indiana Lady Says She Was Run-Down, Suffered With Her Back, Took Cardui, and Got Well.

Richmond, Ind.—"I thought I would write a line or so, to say that I owe my good health and strength to Cardui," says a letter from Mrs. Cora Courtney, 31 Railroad Street, this city.

"I was all run-down until my family thought they would lose me," writes Mrs. Courtney. "My husband coaxed me to take Cardui, so, to please him, I did, and will say I do not regret it, for I am able to do all my work and do my shopping.

"I have five children, four in school, my husband and a boarder to do for, and I do all my own work for all of us, and find time to play. We all praise Cardui. Every sick and run-down woman should take this wonderful medicine.

"I suffered with my back; a very weak feeling in my limbs.

"I felt hardly able to drag; just tired—so tired all the time.

"It was an effort for me to do anything, but Cardui helped me so I felt like a different woman."

If you are in a run-down physical condition, suffering as this Indiana lady says she did, give Cardui a fair trial. It should help you.

Take Cardui. NC-147

FEELING BLUE? LIVER LAZY? TAKE CALOTAB

Wonderful How Young and Energetic You Feel After Taking This Nauseless Calomel Tablet.

If you have not tried Calotabs you have a delightful surprise awaiting you. The wonderful liver-cleansing and system-prifying properties of Calomel may now be enjoyed without the nausea and danger. A Calotab at bedtime with a swallow of water,—that's all. No taste, no salts, nor the slightest unpleasant effects. You wake up in the morning feeling fine. Your liver is clean, your system is purified, your appetite hearty. Eat what you wish,—no danger. The next time you feel lazy, mean, nervous, blue or discouraged give your liver a thorough cleansing with Calotabs. They are so perfect that your druggist is authorized to refund the price as a guarantee that you will be delighted.

Genuine Calotabs are sold only in trade-marked packages. Price, ten cents and thirty-five cents.—(Adv.)

English Girl Mother Returns To Her Country

KANSAS CITY, Mo., Sept. 14.—Nancy Jordan, English girl mother who came to Kansas City following the war with her baby, Francis, to make her home with the former wife of the man who she said was the father of the child, planned to return to England today.

"I will sail in a few days," she said.

When Miss Jordan arrived in New York with her baby following the war, immigration officials objected to her coming into the country.

Mrs. Warren, who shortly before had obtained a divorce from her husband, pleaded to be allowed to assume charge of the mother and baby. She had not mentioned Miss Jordan in her petition for divorce.

"I lived with Mrs Warren only a week," Miss Jordan said, "She had only a small apartment and I was forced to find other quarters. Since then I have supported the baby and myself. For a time Warren gave me money for the child.

"I was working in a department store in London when I first met him. He was in England with the American army. He promised to marry me if I came to the United States."

FOR RENT—Rooms furnished or unfurnished. See W. I. Miles, the Singer Sewing Machine Man at 419 N. Red River St. 13L4

Farrell Says Half Million See Big Fight

By HENRY L. FARRELL
(United Press Staff Correspondent)

NEW YORK, Sept. 14.—More than a million and a half dollars worth of customers wil see Jack Dempsey and Luis Angel Firpo do their demonstration of fight against might at the Polo Grounds tonight.

Latest estimates from the office of Tex Rickard set the prospective receipts at about $1,500,000 and the attendance at 90,000.

Such tremendous interest has developed in the contest between the "fighty" Dempsey and the "mighty" Firpo that the attendance will be limited only by the restricted accommodations at the ball park and the unofficial receipts will be bounded only by what the fans will stand for in the way of extortion from the ticket scalpers.

Estimates today after a canvass of the ticket broker offices and the stairways from which the illegal scalpers work, set the sum which New York and outside points will pay for the fight at close to two million dollars.

Tickets from the $5.00 variety up to the tops at $27.50 that have fallen into the hands of the specs are bringing from $8.80, up to $150. The choice seats in the first eight rows are bringing in five times their value.

Detectives from the district attorney's office were investigating the speculators today and were trying to run down members of the counterfeiting gang that have put bogus tickets on the market.

Tex Rickard denied indignantly that there was any scandal attached to the sale of the tickets.

"It is impossible to stop speculation for such a big bout and we felt fortunate that we had been able to reduce it to the very minimum this time," Rickard said.

Some $15 and $20 seats were still available at the box office this morning and a few top price seats in the back rows. Rickard said he felt that he would go to the grounds tomorrow night with a "sold out house."

Firpo was installed under an effective guard of countrymen at a River side Drive apartment today. He arrived last night from Atlantic City and was hustled out of a big crowd of Latins that had gathered to greet him.

The South American was to establish a new precedent for "day before battle' ceremonies by attending a banquet and love feast to be given in his honor today by the Spanish Society of New York. The program called for the donation to him, in addition to large quantities of native food, of many feet of rabbits, shoes of horses, pieces of clover and other good luck things by which it is hoped he can topple over Dempsey.

Firpo's plans were not announced for the day, but it was learned that he might do a little work on the bridle path in Central Park and loosen up at the gymnasium in Madison Square Garden.

The champion was not due here until tomorrow morning. He decided upon a boat trip down the Hudson from Albany and will not get in until early timorrow morning. Dempsey is not going to any banquet in his honor.

Odds lengthened today to 3 to 1 that Dempsey would retain his title. The largest bet offered was $30,000 to $10,000 on the champion and it was being gobbled in small bites.

In the opinion of most of the experts who have followed Dempsey and Firpo in their training, the champion is almost a cinch victor and they are predicting that the duration of the fight will depend only on how much punishment the South American is able to take.

Predictions of a Dempsey victory in three or four rounds predominate, but enthusiasm for the champion may be overcoming better judgement on the part of his friends.

Being unskilled and rather inexperienced, Firpo is rightly on the short end of the betting. His chances of winning the title depend almost entirely in his ability to stand up in front of punching.

LIVER AND WHITE Pointer pupe, 11 weeks old from best strain dogs. All papers furnished for registration. Male $20.00, female $15.00. I. C. Critz, Teague, Texas. 7J7

"LIGHTNIN" IS COMING

Heralded these many months by playgoers who surrendered to its mingled fun and heart throbs during its record-smashing runs in New York and Chicago, "Lightnin" will be a welcome visitor to the Opera House, Sat., September 29.

The mere announcement that it is one of John Golden's plays would carry strong assurance of its wholesomeness and all 'round merit, but Lightnin has fame that precedes it wherever the English language is spoken and its coming to the more distant cities has been awaited with interest to be compared only with the enthusiasm that attended the early visits of "Ben Hur," "The Old Homestead," "The Music Master," and a few other beloved classics of the stage. Mr. Golden's other successes, "Turn to the Right," "Three Wise Fools," and "Dear Me" are well remembered by local theatregoers and many were also fortunate enough to see "The First Year," "Thank-U," and "The Seventh Heaven" during the past two years in New Work and Chicago. No producer has had his name linked with a stronger group of successes.

Winchell Smith, who wrote Lightnin in collaboration with Frank Bacon, staged the production to be seen here and the cast is a special one, headed by Thomas Jeffeson, son of the late Joseph Jefferson, and organized for a tour of the important cities, including Detroit, Kansas City, St. Louis, Dallas, Houston, and a few of the "high" spots" in the Southwest.

Miss Margaret Beeson, pupil of Mrs. John Priestly Hart, will start her classes in dancing and music on the 17th. Music $6.00 and dancing $5 00. Call 540X or see her at 319 East Sumpter street. 9-3

Lions Go To Teague for Luncheon Today

At 12:15 today a large number of the members of the Mexia Lions club left in automobile for Teague where they were to hold their weekly luncheon, with the Teague Lions as their guests. The idea of Mexia Lions entertaining the Lions of another town in their own town has struck many as very unique. The affair was the result of considerable time devoted to the work by Lion Jerry Cason. Lions R. D. Morgan and Sam Werner of the entertainment committee for September also worked considerable to bring ambout the large attendance that went to Teague.

The following program was arranged for the occasion:

Program

Friday, September 14, 1923, at Teague.

Invocation.

Lion Irvin Riddle, President Mexia Club.

Leader for the Day, Lion Sam Werner.

Welcome Teague Den, Lion Rube Morgan.

Response, Lion Alexander Laws George.

Piano Duet, Mesdames Sam Werner and Wyatt Hayton.

Reading, Miss Mary Adele Woodard.

Neighbors, Lion Garland Adair.

Elks Orchestra.

Home.

Low Rates Are Announced For Fair at Austin

Residents of Mexia will be able to go to Austin for the Texas State Exposition, October 1 to 6, for a fare of only $3.53 for the round trip, according to announcements made by officials of the [illegible] Southern Pacific railroad [illegible].

"The [illegible] rates that have been [illegible] especially low in order that [illegible] may attend, and these rates are [illegible] Chamber's efforts for the [illegible] Dallas. Sale of tickets [illegible] Austin will [illegible] September 30, and last through to October 6, and tickets will be good for return until October 7.

The Exposition at Austin will be one of the big fairs of the state this year. Five days of horse racing will add interest to the fair. A new and interesting livestock department with more than 500 head of [illegible] been secured and a [illegible] track [illegible] the main [illegible] position grounds, has been secured for the livestock.

The main fair will be an enlargement over any fair ever held in Austin. The homelands exhibits, the big Mexican national exhibit, the West Texas exhibit, the kennel department, the labor saving devices, and numerous other interesting and unique exhibits will go to make up a big fair for Central Texas.

Ample amusement and entertainment will be provided in the way of carnival attractions, rides, shows, etc., for every afternoon and night of the fair, and two hours of free entertainment during the same periods has been arranged.

FOR RENT—2 or 3 partly furnished rooms. Reasonable. 549 N. Ross Ave. 11L2

Italy To Evacuate Corfu Sept. 27th

By WEBB MILLER

(United Press Staff Correspondent)

PARIS, Sept. 14.—Italy has decided to evacuate Corfu, Sept. 27, according to the official text of the note of the Council of Ambassadors [illegible]ece, which was made public today.

However, the note says, the Ambassadors reserve the right, in case they decide the conditions of search for the persons guilty of massacre of the Italian boundary commission, have not been executed fully to impose other measures of coercion and penalties, such as handing over fifty million lire and renouncing Greece's right of recourse to the Hague tribunal.

Italy, however, will retain her right to submit to the tribunal her claim for expenses of the occupation of Corfu.

The commission of inquiry of the Council of Ambassadors will commence its settings Sept. 17, at Janina and will report provisionally by telegraph every five days, whereupon the Council will decide whether Greece is acting in good faith.

The funeral service will be held in Athens Sept. 19, when three allied warships will arrive at Phaleres simultaneously.

A NEW RAY PICTURE
"THE GIRL I LOVED"

Charles Ray is said to do the greatest acting of his entire career in "The Girl I Loved," his second United Artists production, which shows at the National Theatre today and Saturday. The work of the star is given added zest by the fact that "The Girl I Loved" is the story of the personal love affair of the poet James Whitcomb Riley, as related in his poem of that title.

The picture is the quintessence of romance, the tale of two masculine hearts that beat for one girl—one of them fiercely. The ardor of this one (enacted by Charles Ray) brings into the plot many terrific incidents which serve to bring the star forward as an actor of powerful emotional force.

Those who know film history will recall that it was a role of this kind seven years ago which, over night, lifted Mr. Ray into the front rank of stars. To the part of the fierce lover in "The Girl I Loved," the popular actor now brings the ripened experience of the intervening years. Although "The Girl I Loved" is tragically emotional, it has many light and gay moments.

The picture's charm is heightened by one of the screen's most beautiful and talented actresses, Patsy Ruth Miller. She is said to give a fine account of herself in the scenes which carry her through the play in almost equal prominence with the star.

"The Girl I Loved" has both romance for the women and "punch" for the men. It is Charles Ray's second United Artists contract, which calls for productions of the biggest calibre. It was directed by Joseph De Grasse, who made "A Tailored-made Man" and others of Mr. Ray's finest films.

STARKEY CASE SENT
TO BROWN COUNTY

EASTLAND, Texas, Sept. 14.—The case of J. L. Starkey, charged with the slaying of Elmer Brown has been been transferred to Brown county where the district court convenes at Brownwood October 15. Starkey has been on trial twice for the murder. Each time the jury failed to reach an agreement.

Efforts To Get In Touch With Village Failed

MEXICALI, L. C., Sept. 14.—Efforts to get into communication with isolated fishing village of San Jose De Cabo, which was reported to have been partially destroped over the week-end by a severe storm and tidal wave, failed today. Officials of the State Government of Lower California were still without official reports of the disaster. Mexican gunboats in the vicinity have been asked to report on conditions along the coast.

Tom Ross Case In Hands of the Jury

ABILENE, Texas, Sept. 14.—The jury in the case of Tom Ross, on trial for the murder of H. L. Roberson was to be charged by Judge W. R. Ely here this morning and probably will start its deliberations this afternoon. Both sides closed their testimony yesterday.

Roberson and Dave Allison, cattle inspectors, were killed in the lobby of Seminole hotel last April. Ross and Milt Good, cattlemen, were indicted on charges of murder.

Alleged Flogging Leader On Trial

MACON, Ga., Sept. 14.—The case of Dr. C. A. Yarbrough, alleged leader of a band of floggers in Bibb County, was expected to be in the hands of the jury late today.

The defense rested its case with a statement by Yarbrough, a prominent dentist here, sweepingly denying charges that he was the "whipping boss."

The prosecution presented its rebuttal evidence today after which the defense will be heard and then arguments made to the jury.

FIGHT BRINGS COLD
WEATHER IN NEW YORK

NEW YORK, Sept. 14.—Thick gray clouds hung low in the sky and a cold wintry breeze swept over the city this morning as the crowds were gathering for the heavyweight championship contest at the Polo Grounds tonight between Jack Dempsey and Luis Angel Firpo. The weather report predicted fair and cool weather with no threat of rain. Overcoats will be in order, however.

Hear the Mexia Elks band at the Freestone Fair tonight.

All A Joke, But Who Is It On?

PLAINVIEW, Texas, Sept. 14.—It was all a joke—the proposition made by ten Plainview business men to R. A. Sneed, secretary of state of Oklahoma to trade Governor Neff of Texas for Governor Walton of Oklahoma.

The jokers confessed this today.

The ten admitted sending a telegram to Sneed proposing the swap "paying boot and charging no commission."

Sneed promptly "closed" the deal in his reply.

Now the ten business men are wondering just whom the joke is on.

SPANISH NAVY
REACHED BARCELONA

PARIS, Sept. 14.—A strong Spanish naval squadron has reached Barcelona bearing orders to use the most severe measures if necessary to crush sedition, the San Sebastian correspondent of Le Journal telegraphed today.

The correspondent said it was generally believed the army revolt would lead to overthrow of the Government, causing an uprising of the people and resulting in civil war.

FOR SALE AT A BARGAIN—A good five room house (recently repapered and painted inside), hall, four closets, 6 foot porcelain bath tub, gas, electric lights, sewerage, hot and cold water, boiler, Majestic range, china closet, matting and linoleum in five rooms and hall, book case, Davenport, and wardrobe, all in good condition and unincumbered. Phone 530 or call and see property at 508 East Bowie Street. 14J4

FOR SALE OR SERVICE—Registered St. Lambert Jersey male, holding 15 generation pedigee, none better. Also nice heifer in milk, also reg. 213 Kennedy St., W. P. Whittington. 14J3

HIGH GRADE upright piano for sale at a bargain; cash or terms. Address Clarke Burr, Corsicana, Texas. 14J4

Mr. and Mrs. C. E. Holleron and little daughter Joe have returned from a two weeks outing spent in "seeing Texas first." They made the entire trip in their car, encountered much rain and bad roads, but had no mechanical car trouble. They visited Houston, Galveston, San Antonio and New Braunfels, with side trips inland. Mr. Holleron is employed by the Sinclair Oil Company.

HOUSE CLEANING IN OK.

TULSA, Ok., Sept. 14.—H. O. McClure, president of the Chamber of Commerce met last night with W. Shelly Rogers, alleged cyclops of the Ku Klux Klan, and two other men declared to be closely associated with the invisible emprie, Bob Sanford, Tulsa county sheriff, whose resignation is demanded by the Governor, was also "at the party."

McClure, it is understood, demanded that the four men take the responsibility of "cleaning house."

Marshall Moore, former deputy sheriff, Broken Arrow, alleged whipping party "habitue," was identified by the victim as the wielder of the lash at the time Leonard Bagby was flogged, at the preliminary hearing yesterday and was bound over to district court under $1,500 bond on a riot charge.

LACK OF ELECTRIC CHAIR
POSTPONES EXECUTION

AUSTIN, Texas, Sept. 14.—Because the state has no electric chair installed at the penitentiary, Mack Matthews and Melvin Johnson, condemned men, were granted a reprieve by Governor Neff. Matthews was to die September 20 and Johnson, September 27.

The law abolishing hanging as the legal means of execution in Texas and substituting electrocution, went into effect a few weeks ago. However, no

The executions were reset for November 9.

ONE WOMAN SHOOTS
ANOTHER AT CHILDRESS

CHILDRESS, Texas, Sept. 14.—Mrs. Albert Whitesides, 32, wife of a rancher of Hollis, Okla., was at liberty on $5000 bond today following the shooting of Mrs. S. A. Maxwell, 35, widow and mother of two children. Mrs. Maxwell probably was fatally wounded.

Mrs. Whitesides surrendered to Sheriff Jim Crane, who was standing a few feet from the scene of the shooting when it occurred.

Motive for the act is unknown. Mrs. Maxwell was shot four times.

King Orders De Riviera To Form New Cabinet For Spain

Tulsa Tribune Is Under Military Censorship On Gov. Orders

OKLAHOMA CITY, Sept. 14.—The military censorship of the Tulsa Tribune was ordered affective immediately, according to Aldrich Blake, executive counsellor to the governor. The Tribune persistently agitated against the governor's course, Blake said. The Tribune threatens seeking a federal injunction against interference. Armed guards are also threatened for a Muskogee morning newspaper, Governor Walton warned, unless Tulsa remedies the situation the military will impose the "most drastic martial law ever used in the state." The Tulsa Chamber of Commerce demanded that the Klan officials take the responsibility for leaning up conditions.

E. L. SMITH OIL CO. LOOKING FOR RAMSEY 2 SOON

The E. L. Smith Oil Company will probably witness the completion of its Ramsey 2 within the next few hours. A ten day fishing [illegible] was successfully handled and the work of drilling in was resumed Thursday. A liner is being set today and bailing will begin tonight.

This Company is rigging up on the Wheelock track, 3500 feet southwest of the Gulf Barron producer. This derrick is now being viewed with keen interest and from the day it is spudded in until completed it will be the operation of chief interest in the entire field. It is in advance of production in the southwest by about one mile. The nearest producer is the Humble Davis which came in this week for 7,000 barrels flush.

The field, yet undefined after five months of activity, seems to be swinging to the west more than it was thought that it would by the fraternity at first. This is stimulating work on tests that are due to join the din of drilling at once. Among such operations are the J. K. Hughes Developing Company's well on the southeast corner of its Alexander tract. It is believed that this is certain for production.

The Humble Davis 2, located in the northwest corner about 1500 feet from the Davis 1, is a derrick.

Much interest centers today in the Gulf's O. C. Barron and the Buttram-Tidal's W. L. Phillips wells, about one half a mile southwest of the Humble Davis gusher. The wells are now in the Austin Chalk and are being watched to see just where they go out of it. They are drilling around 2400 feet.

That both wells are considered with favor is shown by the activity which is at white heat all about them. The Buttram-Tidal interests have started three wells on the Phillips in addition to the one in the chalk. These are a few hundred feet west of the north line of the lease.

Further up to the west, the Humble has a derrick on the northwest corner of the Walker; the Gulf offsetting this on the Brooks and the Humble offsetting to the North of the Humphreys lease. These are about 1,000 feet west of present production. The westernmost producer now is the Buttram-Tidal Mamsey.

Wells expected next are the Skelley Ramsey 1; the U. S. Tex Ramsey 4; the Buttram-Tidal 4-A, offsetting the E. L. Smith Ramsey 4 and the E. L. Smith Ramsey 2.

The Humble has set casing and is nearing completion on the Humble Humphreys, along the south line of the Gulf Murchison.

Locations have been made on the Drews by the Atlantic at the northwest corner of the tract; the Garland Kent on the Fleming, two wells offsetting the Buttram Tidal; the Texas Company offsetting No. 2 to the north. The Empire has made a location on its Sweatman 55 acre tract, a southwest of the Gulf Barron and about a quarter of a mile away.

Arrangements for the Good Will Trade Trip Tuesday and Wednesday, September 18-19, are fast being whipped into shape and during Friday Secretary Stollenwerck of the Chamber of Commerce was engaged in reserving automobiles and getting merchants, business men and professional men to pledge support of the trip.

Arrangements for a ten piece band have been made under the leadership of T. A. Oldfeather, director and the band will give a concert in each place visited. Merchants who have musicians in their employ, who will be necessary to complete the band are urged to co-operate in the trip by letting the musicians off for the day.

The two days routes have been figured out and while the two days will not cover all the points that should be covered, it is proposed that if the trip is a success to repeat it early during October, covering those points left out in the trip next week.

The following is the route:

Tuesday September 18th, assemble on Main street between McKinney and Bonham streets facing west preparatory to leaving town promptly at 8:30 a. m.

Leave Mexia 8:30 a. m. arrive Tehuacana at 9: a. m. spend 15 minutes there.

Leave Tehuacana 9:15 arrive Coolidge 9:45, spend 30 minutes there.

Leave Coolidge 10:14 arrive Prairie Hill 11:00 a. m., spend 15 minutes there.

Leave Prairie Hill 11:15 arrive in Mart 12:00 noon, spend 1 hour there.

Leave Mart at 1:00 arrive Ben Hur 1:30 p. m. and spend 15 minutes there.

Leave Ben Hur 1:45 p. m. arrive in Big Hill at 2:15 p. m. spend 15 minuets there.

Leave Big Hill 2:30 p. m. arrive Kosse at 3:15 p. m. suend 30 minutes there.

Leave Kosse 3:45 p. m. arrive Thornton at 4:15 p. m. spend 30 minutes there.

Leave Thornton 4:45 p. m. arrive in Goesbeck 5:15 spend 45 minutes there.

Leave Groesbeck at 6:00 p. m. for home.

Schedule for Wednesday, September 19th, assemble on East Main street between McKinney and Bonham streets, facing East preparatory to leaving Mexia promptly at 8:30.

Leave Mexia at 8:30 a. m. arrive Wortham at 9:00 a. m. spend 30 minutes there.

Leave Wortham at 9:30 a. m. arrive Streetman 10:15 a. m. spend 30 minuets there.

Leave Streetman at 10:45 a. m. arrive Kirven at 11:15 a. m. spend 15 minutes there.

Leave Kirven at 11:30 a. m. arrive Fairfield at 12:15 non spend 1 hour and 15 minutes there.

Leave Fairfield at 1.30 p. m. arrive Teague at 2:30 spend one hour there.

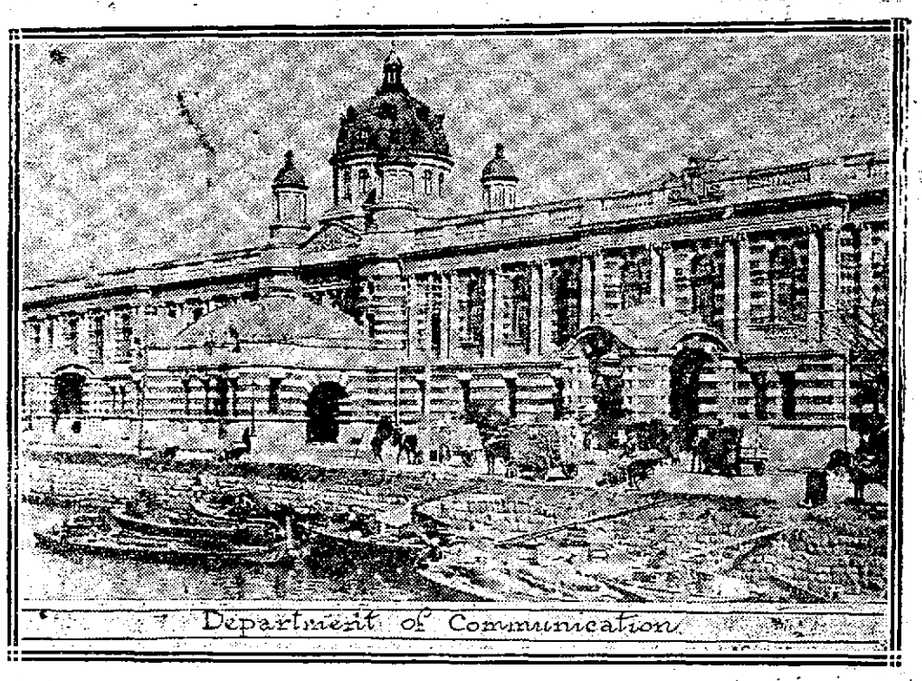
Leave Teague 3:30 for home.

Enroute home stops will be made at Simsboro and Cotton Gin.

The Chamber of Commerce wishes to again emphasize the statement that this Good Will Trade Trip is open to all classes of Mexia Business men and every one is urged to participate and take part in this trip. The expense of the trip will be exceedingly small. The expense of employing the band for the two days being the only item of any consequence, which will be shared alike by all those firms participating. A list of those firms and individuals who will take part will be published in Sunday's News, so every one is urged to phone their names to the office of the Chamber of Commerce, phone No. 81 if the Secretary should fail to see them and everybody is urged not to wait for an invitation as there is no restrictions on participation in this trip.

The Rotary Club, the Lions Club, Salesmanship Club and all other organizations are urged to take part other as organizations or as an individual.

WONDERFUL GOVERNMENT BUILDING DESTROYED IN TOKIO.



Here is the building of the Department of Communications (Post Office Department) of the Japanese Government, in Tokio, totally destroyed by earthquake and flames.

Fans Lining Up For Entrance To The Big Fight

NEW YORK, Sept. 14.—Lines of fans stood before the Polo Ground bleachers gates like world series times, waiting to see the fight tonight. Many remained since midnight. Sweaters, overcoats and lunch baskets prevailed. The temperature reached 58 this morning and a few drops of rain fell. Tex Rickard, promoter, is not discouraged by the prospects for rain, and said the fight would be held tomorrow if it becomes necessary to postpone. Both fighters are in seclusion.

The fighters were weighed in before the boxing commission at 11 this morning. Dempsey weighed 192½. Firpo 216½. A great crowd gathered and police were called to prevent a rush.

EASTERN STAR TO MEET MONDAY NIGHT

Next Monday night will be regular meeting of the Eastern Star, and as there is some important business to be transacted a full attendance of officers and members is urged. Visitors will be welcome also.—W. M.

Spoiled Boy Is Groomed to Rule German

General Ludend[illegible]n Hindenburg's right-hand [illegible] the World War, does not hope [illegible]g ex-Kaiser Wilhelm back [illegible]many, but he does believe the [illegible]chists will re-establish a monarc[illegible] Germany, and he is grooming the eldest son of Princess Hermine, the ex-Kaiser's second wife, for the job. He is Prince Hans Georg Heinrich Ludwig Friedrich Hermann Ferdinand von Schoenaich-Carolath, 16 years old, overgrown and anaemic. He lives, with a court, in his Castle Antitz, in Upper Silesia. He is inordinately fond of candy and eats enormous quantities, despite the orders of his doctors. Hermine is set on having her son made Kaiser and already forces his attendants to address him as "Your Majesty."

Firpo's Father Prays For His Son To Win Fight

BUENOS ARIES, Sept. 14—August Firpo, father of Luis, started the day praying for the success of his gladiator son in his fight against Dempsey. When asked for an opinion he crossed himself and said Dempsey would not last four rounds. Elaborate plans are being made to celebrate in case Fripo wins. The druggist, from whom Firpo worked for years, has installed a radio set and wagered 400 pesos on his former clerk. Police doubt if they can restrain the crowds if Firpo wins. There is very little betting, however.

SCHOOL FOR MEXICAN GIRLS TO BE ESTABLISHED

DALLAS, Texas, Sept. 14.—Acceptance of 299 acres of land and a gift of $10,000 cash to establish a school for Mexican girls at Taft was authorized at the Theursday session of the Texas synod of the Presbyterian church. Mr. and Mrs. Joseph F. Green donors of the gift, were given a vote of thanks. The proposed school will be opened by September 1924, it is planned.

MADRID, Sept. 14.—King Alfonso charged the Barcelona revolutionary leader, Captain Primo De Riviera, with the formation of a new giverment. This followed the resignation of the present government. Alfonso arrived this morning to take charge of the revolution torn country, and was accorded a tremendous welcome. De Riviera, shortly after the King's arrival, issued a new proclamation to the army, saying: "I prefer death to servitude and am not inspired by the example of Mussolini, but by our own great hero, General Prims." The situation is quiet, according to reports.

The selection of the revolutionary leader to form a government indicates the revolution ended in a complete triumph for the military juntas.

J. K. Hughes Busy In Powell Field

J. K. Hughes is being commended on every hand by citizens who appreciate his service in offering to pay for a demonstration home to be built by The Mexia News.

Activities in the Powell field, where the Hughes Developing Company has vast and valuable holdings and producing properties, have demanded much time from Mr. Hughes this week and the conference with him and the News representatives has been delayed.

The citizenship will watch the progress of this home, it is believed, with a growing friendship for this big oil man who is constantly proving his love for Mexia.

The Hughes Developing Company has made a location for a well in line with the westward trend at Powell and it is believed that this company is due for another valuable find in the field that has proven such a great asset for the Hughes stockholders.

New Wells Are Begun at Laredo

LAREDO, Texas, Sept. 14.—Tools have been set up on the Morgan-Gibble No. 1 of the Morgan-Gibble Oil company, located on block 7, survey 335 of Webb county and near the large gasser of the Caroline-Texas Oil interests, being only about three-quarters of a mile to the northeast. The well will be started immediately and rushed with all possible speed to the producing sand found in the Carolina-Texas well. Most all of the large concerns hold acreage in the vicinity of the Carolina-Texas well, some of which was purchased when the large gassers were brought in, others purchased offset acreage when the core was taken out of the Carolina-Texas No. 5, several months ago.

The Laurel Oil company spudded in its No. 4, test this week. It is located as an offset to the J. W. Quigg et al No. 2 and is on the north west part of block 68 of the Los Ojuelos grant of Webb county.

The Elm Oil and Gas interests at the depth of 2100 feet picked up a sand that showed heavily of gas. Casing was set at 2030 feet which resulted in water trouble. The well was drilled to 2100 feet when another sand was cored. The oil is of the 45 gravity variety and is similar to that found in the Magnolia No. 1 at 2040 feet. Efforts are now being made to shut off the water.

The B. B. B. & F. Oil company's No. 1, is now standing at the depth of 2505 feet. The orignal contract called for a test to 2500 feet or oil. It is now understood that an additional contract will be let to drill the well to the depth of 3500 feet. This test is located on survey 100 of the C. Gonzales ranch, about 35 miles northwest of Laredo, in Webb county.

The latest report from the Cole Petroleum company's No. 3, is that the well is drilling below 3485 feet in lime rock with considerable oil and gas showing. According to information obtained from those who visited the well and conversed with officials of the company as well as the driller, all seem to think they have a well at this point but that the test will be drilled through the rock in hopes of picking up a sand under same. Every one connected with the company is jubilant and feels that it is only a question of a short time before they will open up a field, then that will really justify the present name "Powell Field."

Stunt Flyer In Houston Dies Of Injuries When Plane Collapses

HOUSTON, Texas, Sept. 14.—The body of C. L. Kennard, "stunt" aviator, who was burned to death when his plane crashed to the ground and caught fire here last night, was being held here today pending funeral arrangements.

Kennard had just completed a difficult stunt and his plane was flying low over the ground when the landing gear became entangled in a suburban trolley wire. The plane was dashed to the ground, catching fire. Kennard was burned beyond recognition before he could be extricated.

ANOTHER ORANGE DEEP WELL IS IN FOR LARGE FLOW

ORANGE, Texas, Sept. 13.—The Mutual Oil company's No. 4 Chesson came in Wednesday afternoon at 1289 feet with an initial flow of about 2500 barrels of pipe line oil.

This well is declared to be the star well of the field, and like the last best wells, is producing from the deepest sand. This well is a workover, it having produced from a shallower depth for several months before the reworking job was started.

The Humble Oil and Refining company started drilling No. 20 Chesson Wednesday. This is one of the few new wells that have been started in Orange since the beginning of a movement pointing toward the curtailment of activities.

The Humble's No. 18 Chesson, which came in a few days ago, yielding at the rate of about 200 barrels a day, has more than doubled its output of production in the past two days and in the meantime the water output has been substantially decreased.

The American National Oil company was engaged Wednesday morning reaming down in No. 1 Joe Winfrey, where there was an oil showing that attracted considerable attention within local oil circles. This well will be reamed down to a depth around 360 feet, where it is possible that the six inch casing may be set. The work of pumping mud into the well was started Tuesday afternoon in order to prevent a gas blow out, which was plainly threatened.

San Antonio Youth Held For Murder of Child

SAN ANTONIO, Texas, Sept. 14.—As the result of intense feeling Clarke Gofield, 17, is held in the county jail for safety after he is alleged to have confessed to murdering nine year old Irene Hitzfelder. The girl's body was found near Spring Branch with her head beaten in. Examination showed criminal assault.

Old Crimp Has Arrived

Cotton Crop In Texas Larger Than Expected

DALLAS, Texas, Sept. 14.—Cotton production in Texas will be much larger than at first believed, following a week of general rains and a week of fair weather, it was forecasted by crop experts here today. Despite damage to the cotton crop by heavy rains in some sections, the output generally will show a fairly heavy increase, it was believed.

Picking is under way and receipts are reported far in advance of those this time last year. For the most part, farmers are selling their cotton as fast as it is picked although some are holding it for an advance. Approximately one-third of the crop has been picked in North Texas and from one-half to three-fourths in central and South Texas.

A shortage of cotton pickers is hampering the work of gathering the crop.

Mercury Drops Overcoats Brought Forth

The first indications of winter are reported from sections of the middle west and northwest, reaching as far south as Atlanta, Ga. At Kansas City overcoats were worn as the mercury dropped below 50 Sudden drops in temperature are reported in Georgia and other points in the South.

Cleveland experienced the first snow flurry of the season.

Warmer weather is in prospect for the week-end.

Ensign Booth To Go to Meeting to Be Held In Waco

WACO, Texas, Sept. 14.—Waco will be host to two distinguished Salvation Army officials Saturday and Sunday. Lt. Col. George Wood, commander of the Southwestern division of the Salvatiin Army and Ensign Harry H. Booth, divisional secretary of young people's work will be here two days.

Both Col. Wood and Ensign Booth are on tours of inspection. The divisional commander will come direct from headquarters in Dallas after a visit to New Orleans and Baton Rouge, La., and the ensign will arrive here Saturday from Mexia.

Colonel Wood is in command of all Salvation Army activities in the Southwestern division, which includes the states of Texas and Louisiana. Ensign Booth has surervision over work among young people in the 8 corps of the division, and is encouraging more intensive work in that field.

Captain and Mrs. H. C. Burch, officers, of the local Salvation Army corps, are making arrangements for the reception of the divisional officers.

While here Colonel Wood will confer with the Waco Salvation Army advisory board, of which A. M. Goldstein is president, and with V. Walter Pryor, Salvation Army campaign director, relative to the forthcoming annual home service appeal in the [illegible]

The Lions Code of Ethics

1. To show my faith in the worthiness of my vocation by industrious application to the end that I may merit a reputation for quality of service.

2. To seek success and to demand all fair remuneration or profit as my just due, but to accept no profit or success at the price of my own self-respect lost because of unfair advantage taken or because of questionable acts on my part.

3. To remember that in building up my business it is not necessary to tear down another's; to be loyal to my clients or customers and true to myself.

4. Whenever a doubt arises as to the right or ethics of my position or action towards my fellow men, to resolve such doubt against myself.

5. To hold friendship as an end and not a means. To hold that true friendship exists not on account of the service performed by one to another, but that true friendship demands nothing but accepts service in the spirit in which it is given.

6. Always to bear in mind my obligations as a citizen to my nation, my state and my community, and to give to them my unswerving loyalty in word, act and deed. To give them freely of my time, labor and means.

7. To aid my fellow men by giving my sympathy to those in distress, my aid to the weak and my substance to the needy.

8. To be careful with my criticisms and liberal with my praise; to build up and not destroy.

The large flowing production of the E. L. Smith Oil Co. on its Ramsey lease in the Powell field is holding up remarkably well. The thickness of the sand on this tract and the depth to which it was penetrated, should provide a long continued production, even after the wells are put to swabbing and pumping. Its Powell holdings place the E. L. Smith Co. in a very strong and stable position.

Col. Humphreys finally closed his deal with Pure Oil whereby that company takes over control of Humphreys Oil Co. at $50 per share, payable $20 in cash and the balance in ten monthly installments at 7 per cent per annum interest. This sale, which is on a 2 for 1 basis is very gratifying to local holders of that stock.

The Mexia Trade Trip, under the auspices of the Chamber of Commerce, bids fair to be one of the most significant events in the history of this city's efforts to create a better spirit, the spirit of Good Will throughout this territory. Let's go!

Ranger City Commissioners have recently passed an ordinance barring the left hand turn at two of her Main street corners. Not a bad idea to think about.

City Fathers in many places are advising their police departments to enforce the curfew law.

First Shristian Bible Class.

We are very anxious to increase the membership of our Men's Bible Class at the First Christian church.

If you are attending Sunday School at some church, we do not ask you to change, but if you are not we appeal to you to join us. Our class meets every Sunday morning at 9:45 in the main auditorium, and if you will come every member will do his best to make you feel at home, and enjoy yourself as you once did when you were a boy and went every Sunday.

We are all creatures of habit, you are out of the habit and do not like to go. Do what you know you should: Get the habit again and you will like it.

We will be mighty glad to see you present Sunday morning.

W. B. Landrum, teacher.

Mrs. J. H. Redden, and daughter, Miss Ellene, returned Wednesday night from an extended visit with her son, Horace A. Davis in New York City and New Jersey. They report a most delightful trip.

Hear the Mexia Elks band at the Freestone Fair tonight.

CENTRAL TEXAS PRESS
By N. P. Houx.

MEMBER TEXAS PRESS ASSOCIATION

Not being much of a fan, except a natural desire to see the home team win, we apologize for dipping into the matter, but it seemed entirely proper that after squabbling all during the season the play off for the pennant in the Texas Association should end in a fuss without deciding which of the minority clubs playing the runoff was the better—or worse. The term "minority" is properly applied in this case, when you figure up the games for the entire season it will be found that the Mexia club won more games than either Austin or Sherman. Looks funny, doesn't it, but it is possible under the "double" method of playing the season and the "double crossing" policy adopted by the other clubs against the best team in the league. If that is the way "professional ball" is to be played in future Mexia would do well to quit the game and spend her money on something more profitable and honest.

And, unless the bill collectors quit coming so thick and fast, we may have to adopt an attitude of passive resistance.—Terrell Transcript.

Why not issue a moratorium proclamation?

An exchange suggests that Uncle Sam should break up bootlegging if it takes the Secretary of War Weeks to do it.

Several cities in Texas are getting excited over oil prospects. But they should not desert their cotton, corn and grain fields. They should remember the case of Breckenridge, whose citizens shouted this fall when the first bale was marketed there in four years. Oil is all right while it lasts, but it doesn't continue to flow liquid gold forever.—McKinney Courier-Gazette.

Cotton and corn, and wheat and potatoes will last much longer as a money crop. Stick to the plow, boys.

There are ten and a half million motor driven vehicles in the United States according to statistics, and eighty per cent of the drivers still think they can beat a passenger train to the crossing.—Sam Miller in Mineral Wells Index.

Some of them found out that it can't be did, but they are not driving any more as there are no autos on the other side of the river Styx.

Writing the Dallas News, from Cisco, a correspondent professes to see in the Japanese earthquake another sign spoken of in the Scriptures indicating the near approach of the end of time. That being true, let us all devoutly hope that it will not come until Democrats have another chance at the pie counter. The country will need the purifying qualities of Democracy's saints following four years of Republican misrule in order to put it in shape to meet the evenging face of the destroying angel.—Denison Herald.

After Democracy the milleninum, is it?

Editor Sam Miller of the Mineral Wells Index, who has had his teeth extracted, descants at length upon the refined and exquisite horrors of the dental parlor. He paints a picture that makes Dante's little epic read as mild as a high school graduate's thesis on "Beyond The Alps Lies Italy." The trouble with editor Miller is that he didn't come to Terrell to have his teeth extracted. No use for Mineral Wells people to think because they have the best mineral water in the world that they have a monopoly on the whole therapeutic and surgical circus. We had our teeth extracted in Terrell; and while the job was being done we lay on the table in a state of blissful slumber, dreaming that we owned in fee simple a thousand acre tract in the "golden lane" at Mexia. We thought Editor Houx of the Daily News brought the intelligence that the greatest gusher in the history of the field had just been brought in on our tract. It was all so real that when we awoke we started to take out our roll and pay the dentist on the spot for the job. Then the curtain fell.—Terrell Transcript.

And you "woke up" and found that it was only a "dry hole"—several of them in your mouth.

MARLIN IS WATCHING U. OF T. AND A. & M.

MARLIN, Texas, Sept. 14.—Marlin football fans will probably be given a treat in the turkey day game beween Texas and A. and M. at College through the circumstances that have brought the two teams together with a Marlin boy piloting each team from the quarterback position. Sport dope favors George Gardere for this position on the Texas eleven while "Slim" Knickerbocker cinched the same position on the A. and M. team with his field generalship last season.

SOUTHERN PACIFIC GIVES $25,000 TO STRICKEN JAPS

Local offices of the Southern Pacific system here have been advised that the road has subscribed $25,000 towards the fund that is being raised in the United States for relief of the victims of the recent terrible disaster in Japan. This money has been sent by the S. P. lines to the proper authorities.

In addition to this generous donation the Southern Pacific has also agreed to transport supplies for Japanese relief free over its system.

THE EDITORIAL OF THE DAY

SURPLUS GASOLINE STOCKS DON'T EXIST WITH SINCLAIR OIL

The overproduction in gasoline esems to be diminishing rapidly, if the report that the Sinclair Company is marketing all the gas it can produce and that it has no surplus stock on hand. It absolutely controls the gasoline market of Cuba and is a contender in practically all of the retail markets of the United States and France.

A news dispatch out of Chicago, Sinclair's headquarters, states that the Sinclair Oil Company has no surplus stocks of gasoline. Gasoline is being shipped to the consumer as fast as it is produced. Cost of production permits a profit even at the low prices prevailing in certain districts.

The company is in a strong financial position and balance sheets show approximately $25,000,000 cash on deposit.

It also states that the producers and refiners of the Chicago district hold California production wholly responsible for demoralization in crude and gasoline prices. Also, it is pointed out, that buyers are anxious to lay in record-breaking stocks of crude at the present low prices.

In the meantime the Standard and all big marketing concerns are building storage at a rapid rate. In Wyoming, Kansas, Oklahoma and Texas storage is being built more rapidly than ever before in the history of oil and cheap oil is running into these tanks. The marketing companies in cutting the pipe line runs have established a new business in that they are taking the producers' crude for storage and charging at the rate of two cents per barrel a month. Just what effect that new departure will have on future markets remains to be seen, but the small producers find themselves absolutely at the mercy of the big concerns because of the fact that the smal fellows do not have storage facilities for the caring of their own product. Many of the best minds in the oil business however, believe that the cutting in pipe line runs is eventually going to reduce production and prevent further exploration work.

Perhaps a lot of this overproduction talk has been more or less bunk. —Ex.

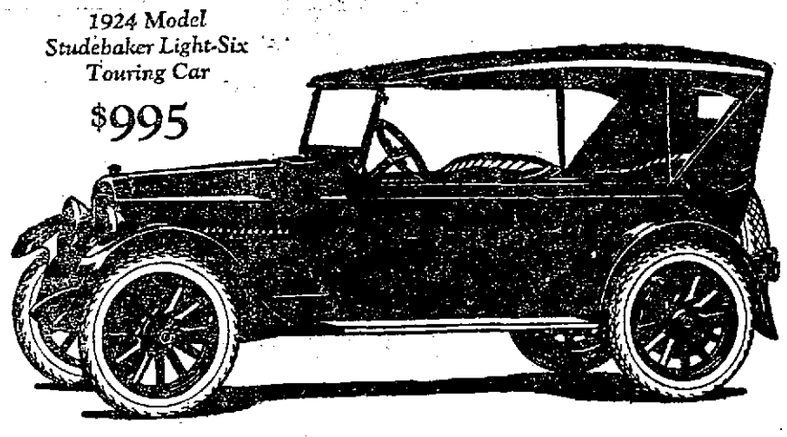
INTEGRITY Studebaker SERVICE

1924 Model
Studebaker Light-Six
Touring Car
$995



Don't Measure This Car By the Price

There is no product where price so fails to indicate value as in a motor car.

The difference in prices rarely represents a corresponding difference in values. Cars are being offered at prices greatly in excess of the Studebaker Light-Six which do not equal its intrinsic value.

Likewise, many cars selling for less, are high-priced compared with the Light-Six. They are not in the same class because they do not represent as great intrinsic value for the money invested. The Studebaker Light-Six is the real quality car in the thousand-dollar field.

The low price of the Light-Six is due to Studebaker's vast physical and financial resources, the saving of middlemen's profits by reason of complete manufacture in Studebaker plants, and low manufacturing and sales overhead per car because of continuous large volume.

The satisfaction delivered by the Light-Six is universal. Its performance has won staunch friends everywhere. This is due to its advanced design and construction.

For example, the crankshaft and connecting rods are machined on all surfaces. This practice, which is largely responsible for its virtual freedom from vibration, is exclusive with Studebaker on cars within hundreds of dollars of the Light-Six price.

If you are thinking of investing about one thousand dollars in a car, then in justice to yourself, consider the Studebaker Light-Six first. Come in and see it. Drive it yourself. Driving is believing.

Latest News From The Oil Fields

Mexia, The Center Of Oil Activities

For the past two years Mexia has enjoyed the reputation of being classed as one of the most important oil centers of the Southwest. Millionaire oil men and gigantic companies maintain headquarters here, from which they go out into many fields in many states and operate in their chosen lines.

The vast extent to which this great industry has grown here and proof conclusive that Mexia is the cented of oil activities, the following tabulations are taken from the latest issue of the "Classified Business Directory of Mexia" as submitted to the public by the American Printing Company:

Oil Agencies—Wholesale

Gulf Refining Co., H. & T. C. tracks, South Mexia; Telephone No. 548; John Groover, Manager.

Humble Oil & Refining Co., H. & T. C. Tracks, South Mexia; Wallace Adams, Manager ;Telephone No. 500; P. O. Box No. 465.

Magnolia Petroleum Co., Titus St., and H. & T. C. Tracks; Bon Hickman, Manager; Telephone No. 474; P. O. Box 504.

Pierce Oil Corporation; H. & T. C. Tracks, South Mexia; V. Gantz, Manager; Telephone No. 551; P. O. Box No. 212.

Texas Company; H. & T. C. Tracks, South Mexia; Telephone No. 9029.

It has been said, and truly so, that a city is more fortunate in being made the home and operating headquarters of a number of oil men than to possess the oil field at its very door and not be able to interest the oil man in locating. Mexia is fortunate in that it has the oil fields at her back door, as well as the residence of an number of big oil men and the operating headquarters of several large companies.

Many oil companies now operating in the Mexia field are making plans to remain definitely for fifteen or twenty years, with assured production.

Oil production varies greatly, even in individual wells, for many reasons. The history of a large number of wells in the Mexia field indicates that production will continue on a satisfactory basis for many years to come. Many wells, when production gets low, on being cleaned out, permitted to rest a short while, or as in some instances deepened slightly, show heavily increased production, indicating that the source of oil is in no wise being exhausted.

Atlantic Oil Production Company; Tehuacana Pike; Telephone No. 9024.

Three More Wells at Luling.

LULING, Texas, Sept. 14.—With the completion of the No. 5 and 6 Rios wells by the United North and South Oil company and the Brown No. 1 well of the Midwest Texas Oil company, three more good producers were added to the Luling field. These producers are in the vicinity of the original discovery well, the Rios No. 1, the two producers of the United North and South are good for 500 barrels, while the Brown well is making 1,200 barrels.

Casing in the latter well was set at 2,078 feet with the bottom of the hole reported at 2,145 feet, this being slightly higher than the big producers of the Grayburg Oil Company, which the well offsets.

To Resume in Freestone County

TEAGUE, Texas, Sept. 14.—Interest in the deep test at Young, Freestone county, which shut down Friday at a depth of 3,153 feet, was heightened by the announcement that drilling is to be resumed.

The shutdown was occasioned by the lack of fuel, which is being hauled to the location, twenty-five miles from the railroad. It was also said the formation showed the drill is approaching the Woodbine sands.

HARVEY GRUBB GOES BACK TO CAROLINA

MARLIN, Texas, Sept. 14.—Manager Harvey Grubb of the Corsicana Gumbo Busters, former Waco third baseman in the Texas league days, left for his home in Greensboro, S. C., after taking the mineral baths.

Another Campaign Against Oil Frauds

WASHINGTON, Sept. 13.—Assistant Attorney GeneralCrim and Henry Zweifel, United States attorney at Fort Worth, conferred with President Coolidge and outlined a new campaign against oil stock swindlers in Texas and Arkansas oil fields, to be started soon by the Department of Justice. The president approved the plan, they said, ordering vigorous prosecution.

Mr. and Mrs. C. F. Holleron and little daughter Joe have returned from a two weeks outing spent in "seeing Texas first." They made the entire trip in their car, encountered much rain and bad roads, but had no mechanical car trouble. They visited Houston, Galveston, San Antonio and New Braunfels, with side trips inland. Mr. Holleron is employed by the Sinclair Oil Company.

When It Doesn't Rain It Doesn't Leak

A LEAKING roof doesn't cause much trouble while the sun shines.

An inferior valve cup can't do much harm in the supply house store room.

Actual oil pumping is the only true test of a valve cup, just as a rainstorm proves the value of a roof. And oil men, old in the field, know that Darcova Valve Cups stand up strongest where service is most severe. That's why you'll find "Darcovas" wherever oil is pumped in greater quantities, at lower cost.

Look for the name.
Be sure you get the genuine

LULING SUFFERS ENCROACHMENT OF WATER IN OIL FIELD

LULING, Sept. 14.—Work of plugging back a number of wells in this district is now under way in an effort to shut off bottom water, that threatened for a while to ruin several good producers. The work is being carried on under the personal supervision of an expert from the United States Bureau of Mines.

While the water trouble has not reached an alarming state all operators agree that the time is opportune for handling the situation, it being remembered that prompt action is what saved many of the big wells in the famous Fish-pond district of Mexia which apparently had been drilled too deep. This latter is what is believed to cause the water to break through in this section several wells having been drilled thru a second cap-rock, encountered after entering the lime.

While several good producers were completed during the week, all were in the proven area with the result they attracted little attention. Chief interest still centers in the many wild cats going down and which are scattered throughout Caldwell, Guadaloupe and Gonzales counties. Of these tests the four wells to be drilled by the United North and South Oil Co. in Guadaloupe county, the Blackstone-Thorman, Cole No. 1 in the northeastern part of Caldwell county and the Fensland Oil Co. No. 1 well on the Whittlesey farm in Gonzales county appear to have the best chance of obtaining production.

Powell Paragraphs

A well is to be drilled on the Humble tank farm tract between the town of Mildred and Navarro, according to announcement made today by Elliott, Sparkman & Mauldin, drilling contractors.

The drilling contractors have secured a drilling site, and will start building derrick today. The location is on the Gill tract, which the Humble purchased for its tank farm. This land was bought with half the mineral rights reserved.

R. E. Brooks Jr., of Houston, has made a drilling location on the Cerf tract, and is building a new derrick.

A new derrick is being completed on the twenty-five acres Crews lease held by the Buttram-Tidal Oil Company. This location is an extension of operations several hundred feet west of the Gulf-Barron and the Buttram-Tidal-Phillips.

Ramsey No. 3 of the U. S. Tex Oil Corporation was completed early Wednesday morning with a flow gauging 200 barrels the first hour according to announcement.

No. 4 Ramsey lost the bailer and a fishing job for it is under way. No 2 Ramsey is under cement.

The U. S. Tex completed its Ramsey No. 1 August 12, it coming in with a flush production of 15,000 barrels. This well opened the big operations in the territory south of the Humble Kent big well.

The Gulf Production company has a total of twenty-seven producing wells in Corsicana deep fields at the present date. It also has a total of fifteen active drilling operations, with several nearing completion.

A new completion made by the Gulf on the Bush 113 acres lease Tuesday is an off-set to the Humble company's Ramsey test in the southwest corner of the 163 acres Ramsey tract. The Humble made a new location on the Mrs. J. C. Walker Pugh forty-two acre tract. This location is the fourth one on this tract and is in the extreme northwest corner. It is a new off-set to the Gulf's Bush location.

The Humble company now has a daily production in the Corsicana oil field of 63,770 barrels.

J. K. Hughes has been a busy man in the Powell field most of this week. His Developing Company is high among the producers of the thriving young field.

The Humble Oil Company has a number of wells due for completion within the next day or two.

Brown No. 2 is waiting on the cement to set at a depth of 2,913 feet, No. 3 today set six and five-eights inch casing at 2,924 feet, and No. 4 at 2,934 feet. Irvine No. C-5 is waiting on the cement to set at 2,853 feet.

Kent No. 2 is swabbing in at 2,916 feet. No. 6 and No. 7 also are expected in within a day or two.

Work of cementing the casing on the Witherspoon Oil Company's Burke No. 6 test is under way today.

The new drilling location known as No. 7 is rigging up today. This location is 350 feet west of the No. 6.

Work of rigging up the location of No. 8 is also under way. This test is 310 feet north and slightly east of No. 7.

The cement plug is being drilled out of the Buttram-Tidal Oil Company's Ramsey No. B-5 test today.

The Humble Irvine No. 8 is setting liner.

A heavy rain fell bordering on the western extremity of the oil fields Wednesday afternoon. The rain extended from the Humble tank farm south of Mildred to Angus and almost to Richland. A heavy cloud for an hour hung over that locality and it is reported that whole section was well drenched. It failed to extend any distance to the east of the Mildred-Navarro road.

R. L. Hoover, Deputy Oil and Gas Commissioner, has been busy in Powell this week. He and Mrs. Hoover have returned from their vacation which they spent in Kentucky.

E. L. Smith, President of the E. L. Smith Oil Company, has returned from Corsicana after a busy week in Powell, during which time a fishing job was completed on the company's Ramsey 2.

PETROLEUM PARAGRAPHS

Shreveport in Northwestern Louisiana is an important industrial city today, due to not only its splendid railroad facilities, but to the great amount of cheap gas for industrial purposes. First gas well in that area was completed in 1905 near Oil City, La.

No oil prospects of commercial value have ever appeared in Minnesota, says W. H. Emmons, director of the Minnesota Geological survey, who writes, "and we consider such prospects extremely unlikely. Therefore the State survey has never published any bulletins on the subject."

What does a gallon of crude oil weigh? If the oil tests 18 gravity it weighs 7.883 pounds, and the weight decreases as the gravity increases. Highest known oil is found in New Mexico—60 gravity—and it would weigh 6.157 pounds to the gallon.

When operating on a normal basis the seven refineries in the Tulsa district move 261 cars of refined oils out a day. Of this 100 cars are from Cosden and company; 20 from Producers and Refiners corporation; 50 from the Texas Company; 60 from Pierce Oil Corporation; 12 from Constantin Refining company; 12 from Chestnut & (Phienix) Smith corporation, and seven from Tidal Refining company.

First commercial oil found in Butler county, Kansas, was in June, 1914, near the town of Augusta, at 2500 feet. Although Greenwood is encoaching on Mutler, it is still the leading district in Kansas today.

Every oil piol has it limitations. The Cushing pool of Creek and Payne counties, in Oklahoma, said to be the greatest source of oil supply ever discovered, quality considered, once produced 400,000 barrels a day. Today it is producing around 26,000 barrels a day.

Present over-production in California recalls that in 1917 producers in that State were wrought up over threatened shortage, due to restriction on drilling upon government lands.

Oldest producing well in the world is said to be that owned by Joseph E. Robinson of Oil City, Pa., and heirs of W. H. Cochran, deceased, of Mercer, Pa., on their 326-acre farm, two miles north of Oil City. It was drilled shortly after Colonel E. L. Drake drilled in his first well on Oil Creek late in 1856. It came in for 175 barrels a day.

More than $30,000,000 is spent annually for dry holes, according to estimates compiled by the nited States Bureau of Mines.

Since 1912 when the first Osage lease sale was held the Osage have received $112,594,849.76 in royalties, bonuses and rentals.

The average barrel of crude oil contains the following: 47.49 per cent gas and fuel oil, yielding 19.94 gallons; 27.51 per cent gasoline, yielding 11.55 gallons; 10.23 per cent kerosene yielding 4.30 gallons; 7.49 per cent miscellaneous products, yielding 3.15 gallons; 4.34 per cent lubricating oil, yielding 1.82 gallons; .83 per cent coke, yielding .35 pounds, and .31 per cent wax, yielding .13 pounds.

Interests identified with the Massachusetts Gas company are spending between $3,000,000 and $4,000,000 for a blast furnace plant, the first to be built in New England. This will give the parent concern both an oil refinery and a coke works.

FOR SALE AT A BARGAIN—A good five room house (recently repapered and painted inside), hall, four closets, 6 foot porcelain bath tub, gas, electric lights, sewerage, hot and cold water, boiler, Majestic range, china closet, matting and linoleum in five rooms and hall, book case, Davenport, and wardrobe, all in good condition and unincumbered. THIS IS A STUDEBAKER YEAR

256 Register In The High School

According to Principal R. M. Andrews of the Mexia High School, 256 students matriculated the first two days of the present school term. Of these 106 were boys and 150 were girls.

The attendance is considered very satisfying. It is expected to be larger, as many more students are to enter all along.

Mr. Andrews states that of these 40 are Seniors, which will represent a much larger class than that of last school year. 51 are members of the Junior class. 70 are sophomores and 95 are freshmen.

Everything worked smoothly the first day and every student went to class Wednesday just like he will go all the year. Mr. Andrews had worked out a system beforehand that worked with clock-like regularity and there was not a hitch in the matriculation and classification of the big student body.

CHARLES RAY SOON AS ROMANTIC LOVER

If all the world loves a lover, a treat is in store for the patrons of the National Theatre on today and Saturday when Charles Ray's second United Artists production, "The Girl I Loved," will present that favorite star as one of the most ardent and dramatic swains that ever sought a woman's hand. Mr. Ray is said to reach acting heights in this picture never surpassed and seldom equalled on the screen.

The star began his stellar career in a very dramatic role seven years ago. In the years since his versatility in comedy has almost obscured his great ability as an actor of finer parts. In "The Girl I Loved" this ability comes out, it is said, with tremendous force before a picturesque background that is lively and gay.

The events occur among the happy rural people of Inriana from 1840 to 1860, and compose a panorama of typical American life that is now seen rarely. Throughout this panorama runs the personal love story of the poet James Whitcomb Riley as he related it in the verses from whose title the picture takes its name.

Under his United Artists contract Charles Ray is now making only big salibre productions, two a year, and this he regards as the greatest of his career. It is the tale of two men who sought a maiden's hand, one of them with tragic ardor. It is clean, like all Ray stories, but carries a tremendous punch. The girl is Patsy Ruth Miller, and it is predicted that the beauty and talents she displays in "The Girl I Loved" will make her a star forthwith.

Jiseph De Grasse, who is responsible for Ray's previous United Artists picture, "A Tailor-Made Man," one of last year's big hits, also directed his latest. The cast also includes Ramsey Wallace, one of the stage's actors of international celebrity.

TOM ROSS TRIAL

ABILENE, Texas, Sept. 13.—The jury in the case of Tom Ross, cattleman on trial on a charge of murdering H. L. Roberson, cattle inspector, was expected to start its deliberations late Friday. Testimony probably will be concluded today.

Wednesday, Ross took the stand in his own defense and told the story of the killing of Roberson in the lobby of a hotel at Seminole last April. Other witnesses substantiated Ross' testimony that Roberson had threatened him.

Roberson and Dave Allison were killed the night of April 1. Ross and Milt Good were arrested and charged with the murder. Both are under sentence as a result of the first trial, two counts being placed against each one.

Must Invest Funds In Cheaper Bonds

AUSTIN, Sept. 13.—University regents were notified that they could not invest University funds in anything but state and federal bonds, under the State Constitution, the Attorney General's Department announced. The regents wanted to invest in independent school district bonds because they brought larger returns.

EAST IS BEHIND

COLUMBUS, Ohio, Sept. 13.—For all its many colleges, universities and libraries, the so-called effete East falls sadly behind the West, if quantity magazine reading is any indicator.

A survey made by Ward G. Reeder, assistant professor in the department of school administration, Ohio State University, shows that the people of California lead the nation in the consumption of magazine reading matter. The survey was based on the circulation figures of the 10 magazines having the largest circulation. It shows that Californians read about six times as much as Mississippians, who bring up the rear.

It is a curious fact that based upon the combined circulation of these magazines in each state contrasted with the population eight Western states place among the first 10. Only Connecticut and Massachusetts are there to represent the East, where most of the magazines are printed. Ohio, the next Eastern state, ranks eleventh.

In similar fashion most of the Southern states are to be found at the bottom of he list. Of the last 17 in the list only two are north of the Mason and Dixon line.

Based upon the proportion of the readers of those magazines to the population, he points out, that the Pacific states (California, Washington and Oregon) outclass all other groups by a large percentage. He also says that the ranking of the states on reading as shown by the survey is about the same as their ranking on intelligence reached by army psychologists during the world war.

The District of Columbia led the nation in reading, judged by those magazines. There Prof. Reeder found 31.7 of the population were magazine readers. The ranking of the states follows: California, 25.8 per cent; Oregon, 24.9; Washington, 24.1; Nevada, 21.25; Wyoming, 20.9; Montana, 18.5; Colorado, 17.9; Massachusetts, 17. 8; Connecticut, 17.2; Idaho, 17.0; and Ohio, 16.8. Illinois ranked twenty third and Pennsylvania twenty ninth.

LARGEST CROWD

The largest crowd of the revival is expected to assemble at the big tent tonight to hear the sermon by evangelist Garrison, which he assured his auditors last night would be a typical twentieth century sermon concerning some of the great sins of the day. How Mrs. Lott married her daughters off is the subject of the sermon.

The interest in the revival is constantly growing. The big tent will likely be taxed to its capacity to hold the congregation tonight.

"The Holy City" will be sung by Mr. Carroll.

Hear the Mexia Elks band at the Freestone Fair tonight.

McCULLOUGH LEASES LAND NEAR OIL WELL

MARLIN, Sept. 14.—Ed McCullough, former mayor of Waco, has purchased an oil lease of ten acres north of the Post Oak company's well, near Chilton, for $1500 or $150 an acre.

NEW SURE WAY TO END BILIOUSNESS

Torpid Liver Fills Body With Poisons—Pepsinated Calomel Guaranteed to Relieve Between Sundown and Sunup—No Nausea.

Calomel is the only medicine that will actually reach the liver, but ordinary calomel is so drastic that many have deprived themselves of its fine effects because of its harshness. This objection has been overcome in Pepsinated Calomel. Many who formerly could not take calomel are finding a most acceptable remedy in Pepsinated Calomel because it is English Calomel (which doctors recognize as the standard of purity), treated with pepsin and other soothing ingredients that not only stimulate the liver to normal action, but sweeten the stomach and aid digestion. Many report that the use of Pepsinated Calomel unclogs their systems of poisonous waste, brings back appetite, causes dullness to disappear and makes them "feel like new!"

Bennett's Drug Store and all reliable druggists recommend and guarantee Pepsinated Calomel to bring relief between sundown and sunup or your money refunded. Try it—we guarantee you'll feel better tomorrow. (Adv.)

This Concerns Every Child's Welfare
MOTHERS are just realizing the remarkable energy-producing value of Karo Syrup—and *why* it is such a wonderful food. It is because Karo contains a very large percentage of *Dextrose*, the great energy food—and is itself in a form to be most easily digested and absorbed into the system.
You could not live long without *Dextrose*. The starch and sugar in all the food you eat—bread, vegetables, potatoes—must be changed into *Dextrose* before your system can use it as an energy food. Give your children plenty of rich nourishing Karo—because it not only supplies the demand for a "sweet" but is real energy food.
Let your grocer be your Children's Health Doctor—ask for Blue Label or Red Label Karo—both of equal nutrition.
* * *
FREE—A booklet about *Dextrose* every mother should read. Explains why children thrive on *Dextrose*. Sent free with beautifully illustrated 64 page Cook Book. Write

FELT TIRED, SO TIRED

Indiana Lady Says She Was Run-Down, Suffered With Her Back, Took Cardui, and Got Well.

Richmond, Ind.—"I thought I would write a line or so, to say that I owe my good health and strength to Cardui," says a letter from Mrs. Cora Courtney, 31 Railroad Street, this city.

"I was all run-down until my family thought they would lose me," writes Mrs. Courtney. "My husband coaxed me to take Cardui, so, to please him, I did, and will say I do not regret it, for I am able to do all my work and do my shopping.

"I have five children, four in school, my husband and a boarder to do for, and I do all my own work for all of us, and find time to play. We all praise Cardui. Every sick and run-down woman should take this wonderful medicine.

"I suffered with my back; a very weak feeling in my limbs.

"I felt hardly able to drag; just tired—so tired all the time.

"It was an effort for me to do anything, but Cardui helped me so I felt like a different woman."

If you are in a run-down physical condition, suffering as this Indiana lady says she did, give Cardui a fair trial. It should help you.

Take Cardui. NC-147

Cuff Links

—Is a necessary article of jewelry for men. A man takes pride in displaying to his friends a piece of nice jewelry that he possesses and all men wear cuff links.

Wonderful How Young and Energetic You Feel After Taking This Nauseless Calomel Tablet.

If you have not tried Calotabs you have a delightful surprise awaiting you. The wonderful liver-cleansing and system-prifying properties of calomel may now be enjoyed without the nausea and danger. A Calotab at bedtime with a swallow of water,—that's all. No taste, no salts, nor the slightest unpleasant effects. You wake up in the morning feeling fine. Your liver is clean, your system is purified, your appetite hearty. Eat what you wish,—no danger. The next time you feel lazy, mean, nervous, blue or discouraged give your liver a thorough cleansing with Calotabs. They are so perfect that your druggist is authorized to refund the price as a guarantee that you will be delighted.

Genuine Calotabs are sold only in trade-marked packages. Price, ten cents and thirty-five cents.—(Adv.)

English Girl Mother Returns To Her Country

KANSAS CITY, Mo., Sept. 14.—Nancy Jordan, English girl mother who came to Kansas City following the war with her baby, Francis, to make her home with the former wife of the man who she said was the father of the child, planned to retunr to England today.

"I will sail in a few days," she said.

When Miss Jordan arrived in New York with her baby following the war, immigration officials objected to her coming into the country.

Mrs. Warren, who shortly before had obtained a divorce from her husband, pleaded to be allowed to assume charge of the mother and baby. She had not mentioned Miss Jordan in her petition for divorce.

"I lived with Mrs. Warren only a week," Miss Jordan said, "She had only a small apartment and I was forced to find other quarters. Since then I have supported the baby and myself. For a time Warren gave me money for the child.

"I was working in a department store in London when I first met him. He was in England with the American army. He promised to marry me if I came to the United States."

Farrell Says Half Million See Big Fight

By HENRY L. FARRELL
(United Press Staff Correspondent)

NEW YORK, Sept. 14.—More than a million and a half dollars worth of customers wil see Jack Dempsey and Luis Angel Firpo do their demonstration of fight against might at the Polo Grounds tonight.

Latest estimates from the office of Tex Rickard set the prospective receipts at about $1,500,000 and the attendance at 90,000.

Such tremendous interest has developed in the contest between the "fighty" Dempsey and the "mighty" Firpo that the attendance will be limited only by the restricted accommodations at the ball park and the unofficial receipts will be bounded only by what the fans will stand for in the way of extortion from the ticket scalpers.

Estimates today after a canvass of the ticket broker offices and the stairways from which the illegal scalpers work, set the sum which New York and outside points will pay for the fight at close to two million dollars.

Tickets from the $5.00 variety up to the tops at $27.50 that have fallen into the hands of the specs are bringing from $8.80, up to $150. The choice seats in the first eight rows are bringing in five times their value.

Detectives from the district attorney's office were investigating the speculators today and were trying to run down members of the counterfeiting gang that have put bogus tickets on the market.

Tex Rickard denied indignantly that there was any scandal attached to the sale of the tickets.

"It is impossible to stop speculation for such a big bout and we felt fortunate that we had been able to reduce it to the very minimum this time," Rickard said.

Some $15 and $20 seats were still available at the box office this morning and a few top price seats in the back rows. Rickard said he felt that he would go to the grounds tomorrow night with a "sold out house."

Firpo was installed under an effective guard of countrymen at a River side Drive apartment today. He arrived last night from Atlantic City and was hustled out of a big crowd of Latins that had gathered to greet him.

The South American was to establish a new precedent for "day before battle' ceremonies by attending a banquet and love feast to be given in his honor today by the Spanish Society of New York. The program called for the donation to him, in addition to large quantities of native food, of many feet of rabbits, shoes of horses, pieces of clover and other good luck things by which it is hoped he can topple over Dempsey.

Firpo's plans were not announced for the day, but it was learned that he might do a little work on the bridle path in Central Park and loosen up at the gymnasium in Madison Square Garden.

The champion was not due here until tomorrow morning. He decided upon a boat trip down the Hudson from Albany and will not get in until early timorrow morning. Dempsey is not going to any banquet in his honor.

Odds lengthened today to 3 to 1 that Dempsey would retain his title. The largest bet offered was $30,000 to $10,000 on the champion and it was being gobbled in small bites.

In the opinion of most of the experts who have followed Dempsey and Firpo in their training, the champion is almost a cinch victor and they are predicting that the duration of the fight will depend only on how much punishment the South American is able to take.

Predictions of a Dempsey victory in three or four rounds predominate, but enthusiasm for the champion may be overcoming better judgement on the part of his friends.

Being unskilled and rather inexperienced, Firpo is rightly on the short end of the betting. His chances of winning the title depend almost entirely in his ability to stand up in front of punching.

LIVER AND WHITE Pointer pupc, 11 weeks old from best strain dogs. All papers furnished for registration. Male $20.00, female $15.00. I. C. Critz, Teague, Texas. 7J7

"LIGHTNIN" IS COMING

Heralded these many months by playgoers who surrendered to its mingled fun and heart throbs during its record-smashing runs in New York and Chicago, "Lightnin" will be a welcome visitor to the Opera House, Sat., September 29.

The mere announcement that it is one of John Golden's plays would carry strong assurance of its wholesomeness and all 'round merit, but Lightnin has fame that precedes it wherever the English language is spoken and its coming to the more distant cities has been awaited with interest to be compared only with the enthusiasm that attended the early visits of "Ben Hur," "The Old Homestead," "The Music Master," and a few other beloved classics of the stage. Mr. Golden's other successes, "Turn to the Right," "Three Wise Fools," and "Dear Me" are well remembered by local theatregoers and many were also fortunate enough to see "The First Year," "Thank-U," and "The Seventh Heaven" during the past two years in New Work and Chicago. No producer has had his name linked with a stronger group of successes.

Winchell Smith, who wrote Lightnin in collaboration with Frank Bacon, staged the production to be seen here and the cast is a special one, headed by Thomas Jeffeson, son of the late Joseph Jefferson, and organized for a tour of the important cities, including Detroit, Kansas City, St. Louis, Dallas, Houston, and a few of the "high spots" in the Southwest.

Miss Margaret Beeson, pupil of Mrs. John Priestly Hart, will start her classes in dancing and music on the 17th. Music $6.00 and dancing $5.00. Call 540X or see her at 319 East Sumpter street. 9-3

NEW FLOORS FOR OLD

$30.25 to $51.85 per Room

You can have a beautiful new hardwood floor at a cost of $30.25 for the flooring, if living room is 12x14 feet.

Lions Go To Teague for Luncheon Today

At 12:15 today a large number of the members of the Mexia Lions club left in automobile for Teague where they were to hold their weekly luncheon, with the Teague Lions as their guests. The idea of Mexia Lions entertaining the Lions of another town in their own town has struck many as very unique. The affair was the result of considerable time devoted to the work by Lion Jerry Cason. Lions R. D. Morgan and Sam Werner of the entertainment committee for September also worked considerable to bring ambout the large attendance that went to Teague.

The following program was arranged for the occasion:

Program

Friday, September 14, 1923, at Teague.

Invocation.

Lion Irvin Riddle, President Mexia Club.

Leader for the Day, Lion Sam Werner.

Welcome Teague Den, Lion Rube Morgan.

Response, Lion Alexander Laws George.

Piano Duet, Mesdames Sam Werner and Wyatt Hayter.

Reading, Miss Mary Adele Woodard.

Neighbors.—Lion Garland Adair.

Elks Orchestra.

Home.

Low Rates Are Announced For Fair at Austin

Residents of Mexia will be able to go to Austin for the Texas State Exposition, October 1 to 6, for a fare of only $6.55 for the round trip, according to announcements made by officials of the Houston & Texas Central Southern Pacific railway system.

"These are the lowest rates that have been granted to the capital city in more than ten years, and these rates are on a par with those granted for the State Fair at Dallas. Sale of tickets for the Exposition at Austin will start on September 30, and last through to October 6, and tickets will be good for return until October 8.

The Exposition at Austin will be one of the big fairs of the state this year. Five days of horse racing will add interest to the fair. An unusually interesting Livestock department with more than 1500 head of stock, has been assured and a separate tract of land, two blocks from the main Exposition grounds, has been secured for the livestock.

The main fair will be an enlargement over any fair ever held in Austin. The homelands exhibits, the big Mexican national exhibit, the West Texas exhibit, the kennel department, the labor saving devices, and numerous other interesting and unique exhibits will go to make up a big fair for Central Texas.

Ample amusement and entertainment will be provided in the way of carnival attractions, rides, shows, etc. for every afternoon and night of the fair, and two hours of free entertainment during the same periods has been arranged.

FOR RENT—2 or 3 partly furnished rooms. Reasonable. 519 N. Ross Ave. 14L2

Italy To Evacuate Corfu Sept. 27th

By WEBB MILLER
(United Press Staff Correspondent)

PARIS, Sept. 14.—Italy has decided to evacuate Corfu, Sept. 27, according to the official text of the note of the Council of Ambassadors to Greece, which was made public today.

However, the note says, the Ambassadors reserve the right, in case they decide the conditions of search for the persons guilty of massacre of the Italian boundary commission, have not been executed fully to impose other measures of coercion and penalties, such as handing over fifty million lire and renouncing Greece's right of recourse to the Hague tribunal.

Italy, however, will retain her right to submit to the tribunal her claim for expenses of the occupation of Corfu.

The commission of inquiry of the Council of Ambassadors will commence its settings Sept. 17, at Janina and will report provisionally by telegraph every five days, whereupon the Council will decide whether Greece is acting in good faith.

The funeral service will be held in Athens Sept. 19, when three allied warships will arrive at Phaleres simultaneously.

A NEW RAY PICTURE
"THE GIRL I LOVED"

Charles Ray is said to do the greatest acting of his entire career in "The Girl I Loved," his second United Artists production, which shows at the National Theatre today and Saturday. The work of the star is given added zest by the fact that "The Girl I Loved" is the story of the personal love affair of the poet James Whitcomb Riley, as related in his poem of that title.

The picture is the quintessence of romance, the tale of two masculine hearts that beat for one girl—one of them fiercely. The ardor of this one (enacted by Charles Ray) brings into the plot many terrific incidents which serve to bring the star forward as an actor of powerful emotional force.

Those who know film history will recall that it was a role of this kind much years ago which, over night, lifted Mr. Ray into the front rank of stars. To the part of the fierce lover in "The Girl I Loved," the popular actor now brings the ripened experience of the intervening years. Although "The Girl I Loved" is tragically emotional, it has many light and gay moments.

The picture's charm is heightened by one of the screen's most beautiful and talented actresses, Patsy Ruth Miller. She is said to give a fine account of herself in the scenes which carry her through the play in almost equal prominence with the star.

"The Girl I Loved" has both romance for the women and "punch" for the men. It is Charles Ray's second United Artists contract, which calls for productions of the biggest calibre. It was directed by Joseph De Grasse, who made "A Tailored-made Man" and others of Mr. Ray's finest films.

STARKEY CASE SENT
TO BROWN COUNTY

EASTLAND, Texas, Sept. 14.—The case of J. L. Starkey, charged with the slaying of Elmer Brown has been been transferred to Brown county where the district court convenes at Brownwood October 15. Starkey has been on trial twice for the murder. Each time, the jury failed to reach an agreement.

Efforts To Get In Touch With Village Failed

MEXICALI, L. C., Sept. 14.—Efforts to get into communication with isolated fishing village of San Jose De Cabo, which was reported to have been partially destroped over the week-end by a severe storm and tidal wace, failed today. Officials of the State Government of Lower California were still without official reports of the disaster. Mexican gunboats in the vicinity have been asked to report on conditions along the coast.

Tom Ross Case In Hands of the Jury

ABILENE, Texas, Sept. 14.—The jury in the case of Tom Ross, on trial for the murder of H. L. Roberson was to be charged by Judge W. R. Ely here this morning and probably will start its deliberations this afternoon. Both sides closed their testimony yesterday.

Roberson and Dave Allison, cattle inspectors, were killed in the lobby of Seminole hotel last April. Ross and Milt Good, cattlemen, were indicted on charges of murder.

Alleged Flogging Leader On Trial

MACON, Ga., Sept. 14.—The case of Dr. C. A. Yarbrough, alleged leader of a band of floggers in Bibb County, was expected to be in the hands of the jury late today.

The defense rested its case with a statement by Yarbrough, a prominent dentist here, sweepingly denying charges that he was the "whipping boss."

The prosecution presented its rebuttal evidence today after which the defense will be heard and then arguments made to the jury.

FIGHT BRINGS COLD
WEATHER IN NEW YORK

NEW YORK, Sept. 14.—Thick gray clouds hung low in the sky and a cold wintry breeze swept over the city this morning as the crowds were gathering for the heavyweight championship contest at the Polo Grounds tonight between Jack Dempsey and Luis Angel Firpo. The weather report predicted fair and cool weather with no threat of rain. Overcoats will be in order, however.

Hear the Mexia Elks band at the Frostone Fair tonight.

All A Joke, But Who Is It On?

PLAINVIEW, Texas, Sept. 14.—It was all a joke—the proposition made by ten Plainview business men to R. A. Sneed, secretary of state of Oklahoma to trade Governor Neff of Texas for Governor Walton of Oklahoma.

The jokers confessed this today.

The ten admitted sending a telegram to Sneed proposing the swap "paying boot and charging no commission."

Sneed promptly "closed" the deal in his reply.

Now the ten business men are wondering just whom the joke is on.

SPANISH NAVY
REACHED BARCELONA

PARIS, Sept. 14.—A strong Spanish naval squadron has reached Barcelona bearing orders to use the most severe measures if necessary to crush sedition, the San Sebastian correspondent of Le Journal telegraphed today.

The correspondent said it was generally believed the army revolt would lead to overthrow of the Government, causing an uprising of the people and resulting in civil war.

FOR SALE AT A BARGAIN—A good five room house (recently repapered and painted inside), hall, four closets, 6 foot porcelain bath tub, gas, electric lights, sewerage, hot and cold water, boiler, Majestic range, china closet, matting and linoleum in five rooms and hall, book case, Davenport, and wardrobe, all in good condition and unincumbered. Phone 530 or call and see property at 508 East Bowie Street. 14J4

FOR SALE OR SERVICE—Registered St. Lambert Jersey male, holding 15 generation pedigee, none better. Also nice heifer in milk, also reg. 213 Kennedy St., W. P. Whittington. 14J3

HIGH GRADE upright piano for sale at a bargain; cash or terms. Address Clarke Burr, Corsicana, Texas. 14J4

Mr. and Mrs. C. E. Holleron and little daughter Joe have returned from a two weeks outing spent in "seeing Texas first." They made the entire trip in their car, encountered much rain and bad roads, but had no mechanical car trouble. They visited Houston, Galveston, San Antonio and New Braunfels, with side trips inland. Mr. Holleron is employed by the Sinclair Oil Company.

C. OF C. DEMANDS
HOUSE CLEANING IN OK

TULSA, Ok., Sept. 14.—H. O. McClure, president of the Chamber of Commerce met last night with W. Shelly Rogers, alleged cyclops of the Ku Klux Klan, and two other men declared to be closely associated with the invisible emprie. Bob Sanford, Tulsa county sheriff, whose resignation is demanded by the Governor, was also "at the party."

McClure, it is understood, demanded that the four men take the responsibility of "cleaning house."

Marshall Moore, former deputy sheriff, Broken Arrow, alleged whipping party "habitue," was identified by the victim as the wielder of the lash at the time Leonard Bagby was flogged, at the preliminary hearing yesterday and was bound over to district court under $1,500 bond on a riot charge.

LACK OF ELECTRIC CHAIR
POSTPONES EXECUTION

AUSTIN, Texas, Sept. 14.—Because the state has no electric chair installed at the penitentiary, Mack Matthews and Melvin Johnson, cnodemned men, were granted a reprieve by Governor Neff. Matthews was to die September 20 and Johnson, September 27.

The law abolishing hanging as the legal means of execution in Texas and substituting electrocution, went into effect a few weeks ago. However, no electric chair has been provided.

The executions were reset for November 9.

ONE WOMAN SHOOTS
ANOTHER AT CHILDRESS

CHILDRESS, Texas, Sept. 14.—Mrs. Albert Whitesides, 32, wife of a rancher of Hollis, Okla., was at liberty on $5000 bond today following the shooting late yesterday of Mrs. S. A. Maxwell, 35, widow and mother of two children. Mrs. Maxwell probably was fatally wounded.

Mrs. Whitesides surrendered to Sheriff Jim Crane, who was standing a few feet from the scene of the shooting when it occurred.

Motive for the act is unknown. Mrs. Maxwell was shot four times.
